

Handbook of Accreditation for Federal Institutions: **2020 Edition**

All previous editions are obsolete.

COUNCIL ON OCCUPATIONAL EDUCATION
7840 Roswell Road, Building 300, Suite 325, Atlanta, GA 30350
(770) 396-3898 or (800) 917-2081
Facsimile (770) 396-3790
www.council.org

Note to the Reader:

Sections II. through V. of this Handbook contain Conditions that must be met by member institutions and, in most cases, are stated in terms of “shall”, “will”, and “must”. These requirements are indicated in **bold**. Section VI. contains accreditation Standards, Objectives, and Criteria. Within this section, each Criterion listed under the ten Standards is a requirement for acquiring and maintaining accreditation.

Changes made to this Handbook by the membership from the previous version are highlighted in blue.

Changes made to this Handbook as a result of mandates of the U.S. Department of Education from the previous version are highlighted in yellow.

SECTION I

The Role and Value of Accreditation

Accreditation is a status granted to an educational institution or program that has been found to meet or exceed stated criteria of educational quality and student achievement. Accreditation emerged in the United States in the late 1800s as a voluntary peer review process that was initiated by educational institutions to assure quality in particular types of institutions (e.g., colleges, high schools, and subsequently other types of institutions). In contrast, accreditation is generally unknown in other countries of the world because they rely on government supervision and control of educational institutions. The record of accomplishment and outstanding success in the education of Americans can be traced in large part to the reluctance of the United States to impose governmental restrictions on institutions of postsecondary education, and to the success of the voluntary system of accreditation in promoting quality without inhibiting innovation. In the United States, accreditation is voluntarily sought by institutions and programs and is generally conferred by *non-governmental agencies.

Accreditation has two fundamental purposes: (1) to assure the quality of the institution or program and (2) to assist in the improvement of the institution or program. Accreditation applies to institutions or programs, and is distinguished from certification and licensure which apply to individuals.

Bodies which conduct programmatic or specialized accreditation are national in scope and focus attention on a program within a postsecondary institution preparing students for a profession or occupation.

Bodies which conduct institutional accreditation are national or regional in scope, and consider the characteristics of whole institutions. For this reason, an institutional accrediting body gives attention not only to the educational offerings of the institutions it accredits, but to such other institutional characteristics as student services, financial status, administrative structure, facilities, and equipment. The Council on Occupational Education is a national institutional accrediting agency.

* The sole exception to accreditation for degree-granting higher education institutions being conferred by “non-governmental agencies” is the New York State Board of Regents, which is the oldest accrediting body in the United States. In addition, there are several state agencies that are recognized by the U.S. Secretary of Education as “state approval agencies” which confer “accreditation-like” status upon certain public, non-degree, postsecondary, career and technical education institutions.

SECTION II

Development of COE Accreditation

A fundamental tenet of a democratic society is that all individuals should have an opportunity to receive an education commensurate with their personal abilities and ambitions. For the vast majority of Americans, this means that the educational system must provide for (1) the acquisition of competencies that will lead to gainful employment in various occupational fields and (2) the continuing education necessary as technological advances place new demands on workers.

A. History

The Council on Occupational Education (hereinafter referred to as the Council or COE) came into existence initially in 1971 as the Commission on Occupational Education Institutions (COEI) of the Southern Association of Colleges and Schools (SACS), a regional accrediting association that serves institutions in an eleven-state region. Operating as a unit of SACS, COEI provided accreditation services to postsecondary occupational education institutions located, with a few special exceptions, in the SACS region.

In preparation for assuming a national scope, the Council was incorporated as a non-profit education organization under laws of the State of Georgia in June 1994. At the end of June 1995, the Council became a fully operational agency when all assets (staff, physical resources, and financial resources) and the membership of COEI were transferred from SACS to the Council. The Commission, composed of 19 members, functions as the governing board and the decision-making body for all accreditation actions of the Council.

Throughout its history, the Council and its predecessor agency have been recognized by the U.S. Secretary of Education as a reliable authority on the quality of education offered by the institutions it has accredited. Its current scope of recognition is as a national institutional accrediting agency for the accreditation of non-degree-granting and applied associate degree-granting postsecondary occupational education institutions.

The Commission AdHoc Committee on Strategic Planning at its June 2008 meeting recognized the need for flexibility and customization of standards for non-Title IV institutions. This need had been documented through the Council's experience of accrediting federal institutions since its inception. Hence, one of the recommendations of the committee was to develop accreditation standards for federal institutions. Through the work of the Federal Institutions' Community of Practice, and on the recommendation of the Council Committee on Standards and the Accrediting Commission of the Council, the new *Handbook of Accreditation for Federal Institutions* was adopted at the business meeting of the Council by the delegates on November 7, 2009.

B. Core Values

On November 8, 2008 the delegates at the Council's annual meeting adopted the core values listed below. The core values provide the foundation for the Council's mission, goals, and objectives.

1. Trustworthiness - denotes honesty, integrity, and reliability.
2. Transparency - implies openness, communication, and clear visibility. Describes an accreditation process or status that is not secretive or mystical.
3. Accountability - implies being answerable and liable. Describes accredited institutions' responsibility to students, regulatory agencies, and business and industry.
4. Commitment - requires dedication of institutions, volunteers, Commissioners and staff. Denotes allegiance, loyalty, and obligation.
5. Flexibility - describes the ability to adapt to both internal and external market changes while maintaining core values. Implies resilience and being open to modification and change.
6. Innovation - proposes a blueprint for expectations for the future that encourages perceptive and imaginative experimentation aimed at meeting the needs of constituents. Addresses the expanded learning economy, student preparedness, and cultural understanding.
7. Collaboration - involves stakeholders working together toward a common goal of quality and integrity and making cooperative use of resources and best practices. Accomplished by institutions through networking and communities of practice.
8. Responsiveness - demonstrates an understanding of constituent's needs and a willingness to respond easily or readily.

C. Mission, Goals, and Objectives of the Council

As articulated to its membership, the mission of the Council is "assuring quality and integrity in career and technical education." The goals that represent the significant values and purposes to which the Council is dedicated are the following:

1. To offer public assurance that accredited educational institutions provide quality instruction in career and technical education that facilitates learning by students and meeting the needs of the labor market.
2. To provide guidance to institutions for the continuous improvement of their educational offerings and related activities.
3. To promote high ethical and educational standards for career and technical education.

4. To enhance public understanding of career and technical education providers and of the value of the education and the credentials offered by these providers.
5. To ensure that the accreditation process validates the achievement of learning and program objectives.

These goals embrace a commitment to integrity and credibility that are intended to result in accreditation by the Council being viewed as a nationally-honored seal of excellence for occupational education institutions. Through its accreditation process, the Council seeks to stimulate the following: (1) validation of job skills; (2) certification of skills for local, state, regional, and national application; (3) portability of skill credentials; (4) placement of graduates in jobs related to preparation received; (5) facilitation of partnerships and consortia through which the United States can continue to compete successfully in the global economy; and (6) linkages among employers, policy makers, business and industry, labor, and other parties with vital interests in technical education.

The mission and goals of the Council provide the framework from which the objectives of COE as an accrediting agency are derived. These objectives are the following:

1. To foster excellence in the field of career and technical education by establishing standards and guidelines for evaluating institutional effectiveness.
2. To encourage institutions to view self-assessment and evaluation as a continuous quality improvement process.
3. To provide counsel and assistance to established and developing institutions, disseminating information between and among institutions that will stimulate improvement of educational programs and related activities.
4. To ensure that the standards, policies, and procedures developed demonstrate recognition of and respect for the diversity of institutional missions.
5. To ensure that the standards, policies, and procedures developed advance quality, creativity, cooperation, and performance.
6. To require, as an integral part of the accrediting process, an institutional self-assessment that is analytical and evaluative and an on-site review by a visiting team of peers.
7. To ensure that the processes of evaluation, policy-making, decision-making, and public participation accommodate the interests of the constituencies affected by the accrediting agency.
8. To publish and otherwise make publicly available the (a) names of candidate and accredited institutions, (b) names and affiliations of members of its policy and decision-making bodies, and (c) names of its principal administrative personnel.

D. Council Membership

Membership in the Council is achieved through a process whereby an institution elects on a voluntary basis to seek affiliation with the Council. The institution seeks initial affiliation with the Council as a candidate for accreditation, which is followed by an extensive self-assessment and, where necessary, self-improvement effort to demonstrate compliance with the Council's Standards and Criteria on educational quality for occupational education institutions. Membership in the Council is achieved and maintained by institutions through the granting of accreditation or reaffirmation of accreditation by the Commission of the Council.

Accreditation is a status of recognition that is granted to an institution which complies with the eligibility requirements, standards, procedures, and obligations adopted by the member institutions of the Council. Accreditation does not certify that every facet of an institution is of equal quality, but it does indicate that no part of the institution is so weak that the educational effectiveness of the institution as a whole and its services to students will be undermined.

E. Innovation

The Commission welcomes and encourages perceptive and imaginative experimentation which aims at increasing the effectiveness of the institution. The Commission is cognizant that special requirements may pertain to some institutions; but these requirements should not be permitted to inhibit new approaches and emphases in educational programs. The Commission insists, however, that such innovative approaches be consistent with the institution's mission and goals, as well as with the mission, goals, and objectives of the Council. Where an innovative or experimental program may be at variance with one or more accreditation Criteria of the Council, the institution **must** request Commission concurrence prior to implementation of the innovation. Such concurrence shall be based upon the institution's ability:

1. To identify the specific Criteria that cannot be applied to the innovation, as well as its (their) related objectives.
2. To propose alternate ways to assess the effectiveness of the innovation in achieving the objectives which are related to the Criteria that cannot be applied to the innovation.

SECTION III

Affiliation with COE

Federal institutions may affiliate with the Council by becoming a candidate for accreditation and subsequently achieving and maintaining accreditation. These two types of affiliation are described below.

A. Candidate for Accreditation

1. Meaning of Candidate Status

Candidate for Accreditation is a pre-accreditation status of an institution actively seeking accreditation by the Commission. During the period of candidacy, the institution is involved in the self-study process and planning for a team visit. Candidate status does not imply accreditation of an institution. The institution **must not** use its candidate status in any way to imply, publicly or privately, that candidate status with the Council denotes approval of its programs or accreditation of the institution by the Commission. Institutions in candidate status are not permitted to apply for approval of substantive changes of any kind.

2. Eligibility Requirements

Each Federal occupational education/training institution (university, college, school, center, unit, or other entity) applying for affiliation with the Council **must** initially demonstrate that it satisfies each of the requirements enumerated below. Taken together, these requirements define the kind of educational organization that the Council considers a part of its institutional universe and within the scope of the accrediting activities for which the Commission assumes responsibility.

To be eligible for consideration by the Commission for candidacy for accreditation (pre-accreditation status), an institution **must**:

- a. Meet the Council's definition of 'institution' as described in the *Handbook of Accreditation*;
- b. Offer postsecondary instruction exclusively in career and technical education at all campuses on a continuous basis;
- c. Offer credentials no higher than an applied associate degree;
- d. Demonstrate the institutional capacity to assure the following: staffing for administrative and faculty needs; responsible financial and facilities management; and support for the institution's programs and services;
- e. Utilize a campus-based instructional delivery system with at least 25 percent of the institution's total Full-Time Equivalency (FTE) being derived from enrollments in traditional (bricks and mortar) programs at all campuses.
- f. Be legally authorized to operate within the jurisdiction in which it is located for a minimum of one year;
- g. Have been in continuous operation and providing instruction at the main campus and under the same governance for a minimum of one year;
- h. Have the on-site administrator or other full-time employee at the main campus attend Candidate Academy - Part 1 within 12 months prior to submitting an application for candidate status;

- i. Demonstrate that it meets the financial stability requirements for the most recent completed fiscal year as stated in Standard 7 - Financial Resources;
- j. Be in compliance with Federal requirements applicable to accreditation; and,
- k. Agree to comply with all requirements of the Council.

Institutions with non-main campus sites (branches or extensions) must meet additional eligibility requirements applicable to those locations. Institutions seeking candidate status with the Commission that have non-main campus sites must:

- a. Demonstrate that the governance of non-main campus sites (branches or extensions) is identical to that of the main campus;
- b. Demonstrate that local commanders or chief administrators of non-main campus sites report to the commander or chief administrator of the main campus;
- c. Demonstrate that duplicate records on personnel, financial matters, student attendance, and educational progress for non-main campus sites are kept at the main campus. (NOTE: Institutions capable of maintaining and accessing records electronically may keep records previously mentioned at the main campus.); and,
- d. Demonstrate that names of non-main campus sites are identical to that of the main campus. (Names of non-main campus sites may be expanded, with Commission approval, to identify different locations or specific programs.)

The Council does not accredit institutions that:

- a. Offer instruction via correspondence education (see Section VII for definition);
- b. Operate virtual campuses. That is, campuses accredited by the Council must offer at least one traditional program - which demonstrates continuous enrollment - along with any others offered via distance education; or,
- c. Offer degree credentials of any type other than the applied associate degree.

3. Award of Candidate Status

An institution meeting the above requirements **shall** host a candidate visiting team by the Commission (cost to be paid by the institution). The visiting team will submit a written report to the Executive Director within 30 days of the date that the candidate team visit was concluded. The official report will be transmitted to the institution. The institution **must** submit a response to all findings of non-compliance of eligibility and federal regulatory requirements for receipt in the Council office within 30 days of the date that the team report was transmitted from the Council office. (The Commission reserves the right to limit the length of institutional responses to official team reports or other requests for documentation and to require workshop attendance.)

If the team report and the institutional response report show that there is a reasonable expectation of accreditation being achieved within three years, the Commission may grant candidate status to the institution. To become a candidate for accreditation, an institution **must** be approved by the Commission.

An opinion regarding the reasonable expectation of accreditation being achieved within three years is recorded by the visiting team in the official candidate site visit report. The final determination, however, is made by the Commission. This determination is based upon information gathered through the candidate application and supporting documents, the candidate site visit report, the institution's response to the team report, correspondence between the institution and Council staff or between the Council staff and team members, and/or other sources.

Once candidate status is granted by the Commission, institutions demonstrating progress toward becoming accredited may remain in candidate status for a period not to exceed three years. During the candidacy period, institutions are not permitted to apply for approval of substantive changes of any kind.

Candidate institutions must send an on-site administrator or other full-time employee at the main campus to Candidate Academy—Part 2 prior to hosting an accreditation visiting team.

Candidate institutions **must** complete a Self-Study Report and host a visiting team no earlier than six months after a representative has attended Candidate Academy - Part 2, but no later than 24 months after becoming a candidate. (The remaining twelve months provides allowance for deferrals in the granting of initial accreditation by the Commission.)

Institutions that fail to host initial accreditation team visits within 24 months after candidate status is granted will be dropped from candidate status at the next meeting of the Commission. (A request for an extension with good cause may be submitted in order to avoid termination of candidate status.)

Candidate institutions must maintain continuous compliance with all requirements for candidate status with the Commission. Any violation of these requirements will be cause for the Commission to drop the institution from candidate status.

Institutions that have been dropped from candidate status may not reapply for membership with the Council. Institutions that have voluntarily withdrawn from candidacy may file a new application for candidate for accreditation one year after the effective date of withdrawal.

4. Annual Renewal of Candidate Status

Continuation of candidate status is determined annually by Commission approval of institutional annual reports indicating that candidate institutions are making progress toward meeting the Council's Standards and Criteria.

B. Accreditation

1. Eligibility Requirements

After an institution has been accepted as a candidate for accreditation and becomes an active participant with the Council, the earliest that the institution can host a visiting team for the purpose of initial accreditation is six months after a full-time employee has attended Candidate Academy-Part 2. To be eligible for accreditation, a Federal institution **must**:

- a. Continue to meet the eligibility requirements to be a candidate for accreditation;
- b. Occupy its own physical facilities;
- c. Have students continuously in attendance for a minimum of two years except for regularly scheduled breaks, holidays, and vacation periods;
- d. Host an initial accreditation team visit no earlier than six months after Candidate Academy-Part 2 attendance. (The institution must have a valid Candidate Academy/Self-Study Workshop certificate on file at the time of the team visit. See next requirement.);
- e. Have the on-site administrator or other full-time employee at the main campus attend Candidate Academy-Part 2 within 18 months prior to hosting the accreditation visiting team;
- f. Have undergone a self-study based on the mission of the institution and the Standards and Criteria approved by the Council and have filed the required documents with the Commission;
- g. Have undergone a visiting team review;
- h. Have written a letter requesting accreditation and submitted an institutional response to the team report by the commander or chief administrator of the institution. (The response **must** be received in the Council office within 30 days of the date that the letter requesting a response was transmitted from the Council office. The Commission reserves the right to limit the length of institutional responses to official team reports or other requests for documentation and to require workshop attendance.); and,
- i. Be accepted by a majority vote of the Commission as meeting the Standards and Criteria of the Council.

Visiting teams for initial accreditation or reaffirmation, once scheduled, will not be rescheduled without good cause (such as major interruption in leadership or operations). Reaffirmation visiting teams must be conducted in the year specified by the Commission. If an accreditation team visit is rescheduled for any reason, the next accreditation cycle will be reduced accordingly, a restrictive status (such as Probation) may be assigned, and a financial penalty may be assessed.

Institutions being considered for initial accreditation must obtain accredited status within 12 months after the first review by the Commission. If initial accreditation has not been granted within the twelve-month period immediately following the first deferral of action, the institution shall be **denied initial accreditation**.

2. Annual Renewal of Accreditation

Accreditation is for a period of one year from July 1 through the following June 30. Continued accreditation is determined annually by Commission approval of institutional annual reports that verify that accredited institutions are complying with the Council's Standards, Criteria, and Conditions.

3. Reaffirmation of Accreditation

Reaffirmation of accreditation **must** occur from two to six years after initial accreditation or any subsequent reaffirmation decision. The time interval for reaffirmation is determined by the Commission as a part of its accreditation or reaffirmation decision. Institutions **must**

meet the same requirements for reaffirmation as required for initial accreditation (see Section III.B.1 above). At the discretion of the Commission, the institution may be required to undergo reaffirmation earlier than the previously determined year.

Institutions undergoing reaffirmation of accreditation must send an eligible representative to Commission-sponsored workshops for the preparation of the Self-Study Report and workshops for submitting the Annual Report within six to 18 months prior to hosting the reaffirmation visiting team. (See following section: Workshop Attendance Requirements.) Beginning six months prior to the original scheduled dates established for hosting an accreditation visiting team, a moratorium on substantive change approvals (both initial and final) will be in effect and will remain in place until the institution has been granted reaffirmation of accreditation.

Institutions being considered for reaffirmation of accreditation must obtain reaffirmation within 12 months after the first deferral of action by the Commission. If reaffirmation has not been granted within the twelve-month period immediately following the first deferral of action, the institution shall be dropped from accreditation.

An institution that has been dropped from accreditation may file an appeal of the Commission's decision in accordance with the Commission's policies on appealing Commission decisions (see section E. Commission Action, 3. Appealable Actions, and the *Policies and Rules of the Commission*, Appeal Process).

C. Guidelines and Requirements for Workshop Attendance

As stated at the beginning of this *Handbook*:

Accreditation has two fundamental purposes: (1) to assure the quality of the institution or program, and (2) to assist in the improvement of the institution or program.

Self-study activities conducted by institutions, to include annual reporting, and team visits to evaluate compliance with Standards fulfill the first part of that statement. The second part – improvement – is completely dependent upon the Council providing opportunities for improvement **and** the active participation and depth of involvement of commands and individuals seeking improvement.

Membership of institutions with the Council is voluntary. So, too, is attendance at Council conferences and training activities beyond the minimum requirements described in this section. However, the Council strongly encourages **frequent** participation of command representatives in annual conferences and training activities, as well as a deeper level of involvement in specific accreditation activities in order to more fully benefit from the opportunities the Council provides - benefits that cannot be attained by compliance with minimum requirements.

Council conferences and meetings provide members up-to-date information on changes to Council bylaws, policies, rules, and academic standards. Staying abreast of these changes will help member institutions obtain the academic quality and rigor expected of federal training organizations, as well as meet the academic criteria and exhibits required to reaffirm accreditation annually.

Serving as team members and leaders on accreditation site visits, involvement on committees for standards and policies development, engagement in critical topic discussions at the Summer and Annual Conferences, and being present at the Annual Business Session to vote on accreditation Standards changes are but a few of the opportunities offered by Council to its membership to fulfill the second purpose as stated above, 'to assist in the improvement of the institution or program'. The rest depends on the commitment of the command and its representatives who seek to improve and maintain the highest educational standards possible.

Attendance at Commission-sponsored workshops is a requirement before Commission review and approval of certain accreditation statuses.

1. Eligible Representatives

Full-time institutional employees who serve as administrators, liaisons, faculty, and staff of institutions seeking candidate status or accreditation with the Council are institutional representatives eligible to attend required workshops and earn certificates that enable the submission of candidate applications and the scheduling of accreditation team visits. (See specific time lines described in the subsections below.)

The following persons are not eligible to meet these attendance requirements:

1. Institutional employees whose offices are not located at a main campus of an institution;
2. Consultants who are contracted to assist institutions with the accreditation process; and,
3. Contractors hired to provide products or services to candidate and accredited institutions

Certificates of attendance that were earned by former administrators, liaisons, faculty, or staff, are null and void upon their departure from or termination by the institution. Because of this possibility, it may be in the institution's best interest to have more than one eligible representative attend workshops required by the Council.

2. Candidate for Accreditation

Institutions interested in membership with the Council must attend a series of workshops (the Candidate Academy) before an application for approval of candidate status can be submitted. Once an attendance certificate for Candidate Academy-Part 1 is earned, an institution interested in membership with the Council must submit the application for candidacy within 12 months after the date of attendance.

The Candidate Academy-Part 2 attendance certificate also serves as certification of the self-study and annual reporting processes that is required before initial accreditation can be considered. Institutions that gain candidate status with the Council must host their initial accreditation team visit no later than 18 months after earning the Candidate Academy-Part 2 certificate.

Institutions that fail to submit their applications for candidacy within 12 months of attending Candidate Academy-Part 1 must repeat their attendance at this workshop before submitting an application for candidacy. Institutions that fail to host their initial accreditation visit within 18 months of Candidate Academy-Part 2 attendance must attend a Self-Study Workshop and an Annual Report Workshop at either the COE Summer Conference or COE Annual Meeting within 6 to 18 months of hosting their initial accreditation visit.

3. Reaffirmation of Accreditation

Institutions currently accredited by the Council that are preparing to host a visiting team for reaffirmation of accreditation must attend the Self-Study Workshop and workshops for submitting the Annual Report required by the Council. These attendance certifications must be earned no less than 6 months before – and no more than 18 months before – the institution hosts its team visit.

Failure to attend these workshops within this time period may be grounds for an institution to be placed on Probation, and will result in the postponement of the accreditation team visit, the levy of a financial penalty, and a reduction in the number of years between accreditation visits. (See Fees and Penalties.)

4. Annual Reporting

Attendance at workshops for submitting the institutional Annual Report (and for reporting student achievement data) is required of candidates for accreditation and accredited institutions. Earning these certificates is required as part of the application process for candidate status and the accreditation visit cycle for accredited institutions as established by the Commission. Institutions must provide documentation (workshop attendance certificates) that this requirement is met no less than 6 months, and no more than 18 months, before an institution hosts a team visit for initial accreditation or reaffirmation of accreditation. (These workshops are included in Candidate Academy – Part 2.)

No less than 6 months, and no more than 18 months before an institution hosts a team visit for initial accreditation or reaffirmation of accreditation, the institution must provide **documentation** (workshop attendance certificates) that it met this requirement.

5. Team Member/Team Leader Certification

Those who volunteer to serve as the leaders and members of team visits conducted by the Council for candidate status, accreditation, substantive changes, and other circumstances, are required to be certified in the team reporting processes of the Council every three (3) years. Attendance at workshops for team member/team leader certification will fulfill this requirement.

Those who wish to serve as team leaders must maintain team member certification as well as team leader certification.

This Page Intentionally Left Blank

SECTION IV

The Accreditation Process

The components of the accreditation process described below represent the primary means through which the objectives of COE as an accrediting agency are addressed. The process incorporates a comprehensive institutional Self-Study Report, peer evaluation, and decision of the Commission based on the Council-approved Standards and Criteria for accreditation.

A. The Self-Study

The primary purpose of the self-study is to examine an institution's qualifications for accreditation through a comprehensive self-evaluation conducted by institutional personnel. The self-study process also serves as a strategic planning vehicle for the improvement of institutional services. The Council provides guidelines for the self-study in a manual that each institution is expected to use in planning, conducting, and reporting its self-study.

Use of Consultants

The use of consultants is optional to assist in the self-study process, however, the vast majority of institutions, large and small, achieve accreditation solely through the efforts of their faculty and staff. Clear indication must exist that the faculty and staff were responsible for preparing, revising, and editing any documents required in the accreditation process. Within seven days after employing a consultant for the purpose of assisting in the accreditation process, an institution **must** submit a copy of the consultant's resume to the Council. A consultant may provide assistance to the institution by conducting an on-site workshop for one or more of the following purposes:

1. Acquainting the administration and staff with the self-study process.
2. Providing an explanation of the content of the accreditation Standards and Criteria.
3. Lending assistance in organizing the self-study effort to maximize staff participation.
4. Identifying the types of exhibits or other documentation needed to support or complement the Self-Study Report.

Attendance of a consultant at a Commission-sponsored Self-Study Workshop or Candidate Academy does not satisfy the requirements for workshop attendance by the staff and/or faculty of the institution seeking accreditation.

Consultants may not serve as leaders or members of visiting teams scheduled for institutions for which they have contracted their services. Additionally, consultants must not be present during Council site visits required for candidacy, accreditation, focused review, or approval of substantive changes. Anyone who violates this policy will be permanently barred from participation in visiting teams or any other accreditation activity conducted by the Council.

Consultants may not serve in the role of accreditation liaison for an institution and should not contact the Council office for information on behalf of the institution.

B. The Site Visit

The primary responsibility of the visiting team is to determine whether or not the institution is in compliance with the Standards and Criteria required for accreditation by the Council. The visiting team assesses the quality of an institution in light of its stated mission using the Standards and Criteria of the Council as the basis for the assessment. Information sources utilized by team members in conducting the on-site evaluation include the institutional Self-Study Report, documentation available at the institution, interviews of individuals associated with the institution, and observation of conditions and practices.

The Commission is responsible for establishing requirements related to visiting teams. Those requirements are presented in a separate document containing the guidelines for accreditation visiting teams.

Consultants, if retained, must not be present during Council site visits required for candidacy, accreditation, focused review, or approval of substantive changes.

C. Institutional Response Report

In those instances where a visiting team reports a failure of an institution to comply with one or more Standards, Criteria, and/or Conditions for accreditation (i.e., when the team makes one or more findings of non-compliance), the institution is required to take corrective action immediately. The institution **must** submit a written report that addresses each violation by describing and documenting the action taken by the institution to comply with the requirement. (The Commission reserves the right to limit the length of institutional responses to official team reports or other requests for documentation and to require workshop attendance.)

Institutions that receive no findings or suggestions in an official team report must write a letter acknowledging receipt of the team report and requesting initial accreditation, reaffirmation of accreditation, approval of the substantive change, or a positive determination after the Commission's review of a focused visit team report.

Institutional responses (reports or letters) must be received within 30 days of the date that the team report was transmitted from the Council office. Specific instructions for preparing and submitting the institutional response report are published in the Guidelines for Accreditation Visiting Teams adopted by the Commission.

The Commission often requests the submission of additional documentation as part of the review process before action is taken on a variety of matters. When the Commission requests additional documentation, it reserves the right to limit the length of institutional responses to official team reports or other requests for documentation and to require workshop attendance.

D. Annual Documentation/Reports Required for Renewal of Candidacy or Accreditation

Continued candidate status or accreditation is determined annually by Commission approval of institutional annual reports. Candidate institutions **must** show progress toward meeting Standards and Criteria and accredited institutions **must** show that they are complying with Standards, Criteria, and Conditions for continued accreditation.

The institution **must** provide applicable information requested in the annual report. Reporting substantive changes in the annual report does not constitute written notification of these changes to the Council.

Failure to submit an annual report or additional information regarding the annual report by the due date established by the Commission **shall** be grounds for an institution to lose its candidate or accredited status.

E. Commission Action

1. Possible Commission Decisions

The Commission has a variety of options for action when making decisions regarding the award, maintenance, or termination of status with the Council for candidate and accredited institutions. The options available are the following:

- a. Grant candidate status
- b. Deny candidate status
- c. Renew candidate status (based on submission and approval of an institutional annual report)
- d. Drop from candidacy
- e. Grant initial accreditation
- f. Deny initial accreditation
- g. Renew accreditation (based on submission and approval of an institutional annual report)
- h. Reaffirm accreditation
- i. Deny reaffirmation of accreditation
- j. Impose statuses
 - (1) Notification of apparent deficiency
 - (2) Warning
 - (3) Probation
 - (4) Show Cause Order
- k. Defer decisions
- l. Drop from accreditation

The review of the status of any institution may be conducted periodically as specified in the procedures of the Commission. A focused review may be prompted by a notice of substantive change; by a complaint; by notification of possible unethical conduct; or by a possible violation of Standards, Criteria, or Condition adopted by the Council. The Commission may take the same actions in both periodic and ancillary visits regarding the institution's status.

With respect to institutions which are currently holding Candidate for Accreditation status, the Commission **reviews** the Self-Study Report, visiting team report, institutional response, and other sources of information to choose one of three alternative actions: **(1) continue candidate status, (2) grant initial accreditation, or (3) deny initial accreditation.**

With respect to institutions that are currently accredited, the Commission may continue the institution's accredited status, may assign any of four statuses, or may drop the institution from accreditation.

Institutions will be notified within 30 days of adverse Commission decisions which affect their candidate or accredited status by letter sent by certified mail or other signature-required delivery service addressed to the commander or chief administrator. The letter includes: the decision, a statement of the substance of the basis for the decision, and the deadline for an institutional response or appeal which may be permitted.

In all cases where the number of days for taking action or making a response is specified, "days" means calendar days unless otherwise indicated. In all situations specifying the number of days within which the institution is required to make a response, the deadline is computed from the date the notice prompting such a reply was transmitted by the Commission.

The Commission may, to provide time for supplementary activity, choose not to take action but may defer its decision. Such a deferral causes an institution's status to remain unchanged unless the Commission, in announcing its deferral action, specifies otherwise.

If in the judgment of the Commission the conditions warrant, the Commission may impose one of the four statuses on an institution. A status may be withdrawn by the Commission upon clarification or remediation, but is not subject to appeal.

The four statuses are defined as follows:

Monitoring Status

Notification of Apparent Deficiency—Notification of Apparent Deficiency is a status which signifies that the institution is apparently deficient with respect to a requirement of the Commission. The institution has 30 calendar days to respond. This status may be removed at any time by the Commission upon clarification or remediation of the apparent deficiency, or may be changed by the Commission to a violation status.

Violation Statuses

Violation statuses are imposed by the Commission when, after a thorough review of issue-specific documentation, it determines that an institution is in violation of one or more of the Standards, Criteria, and/or Conditions of the Council. Violation statuses, when imposed, are a matter of public record and will be published on the Council's website in the form of a notification.

The Commission will require the institution to take action to bring itself into compliance with the agency's Standards, Criteria, and/or Conditions in a time period specified by the Commission, but not to exceed:

- (1) Twelve months, if the program, or the longest program offered by the institution is less than one year in length; or,
- (2) Eighteen months, if the program, or the longest program offered by the institution, is at least one year, but less than two years in length; or,
- (3) Two years, if the program, or the longest program offered by the institution, is at least two years in length.

The Commission may use its discretion to specify a time period for compliance that is more restrictive than those listed above, based upon circumstances. Once the stated time period for compliance expires, the institution will be subject to adverse action to be effective by the deadline specified in the Commission's letter. The Commission may extend the time period for compliance with good cause.

Violation statuses can be restrictive or nonrestrictive. A nonrestrictive violation status allows an institution to come before the Commission to seek a grant of initial accreditation or reaffirmation of accreditation, and to apply for substantive change approval. Restrictive violations, however, prevent an institution from seeking a grant of initial accreditation or reaffirmation of accreditation, or approval of any substantive change.

Warning—Warning is a nonrestrictive status imposed by the Commission if it determines that an institution is in violation of one or more of the Standards, Criteria, and/or Conditions of the Council. The Commission will require the institution to submit periodic reports during the imposition of this status in order to determine the institution's progress toward compliance. The types and the requirements for reporting will be established by the Commission and may include, but are not limited to, reports on financial stability, administrative capability, and program outcomes. Compliance must be demonstrated within a time period not to exceed that which is based on the length of the longest program offered by the institution (above), but may be more restrictive, based upon circumstances. The deadline for compliance may be extended with good cause. An ancillary visit may include a Commission representative, as required.

Probation—Probation is a restrictive status imposed when, in the judgment of the Commission, there is a violation of Standards, Criteria, and/or Conditions of the Council that must be corrected or the institution will suffer loss of candidate status or accreditation. Probation may be imposed for a period not to exceed one year. Imposition of this status will not extend the original time period for compliance previously specified by the Commission unless good cause has been demonstrated by the institution.

Show Cause Order—Show Cause is a restrictive status assigned by the Commission because of one or more serious violations of the Standards, Criteria, and/or Conditions of the Council. Once imposed, Show Cause provides an institution 30 calendar days to show why it should not be dropped. Imposition of this status will not extend the original time period for compliance previously specified by the Commission unless good cause has been demonstrated by the institution.

As stated previously, initial accreditation or reaffirmation of accreditation will not be granted during the time that a restrictive violation status is imposed. Substantive change applications will not be processed, whether new or pending, before the resolution of a restrictive violation status (warning, probation, or show cause) or during the pending of an appeal of a decision of the Commission.

When an institution continues to be in violation of Standards, Criteria, and/or Conditions after being placed on Warning, Probation, or issued a Show Cause Order, or where circumstances are deemed sufficiently compelling, the Commission has the responsibility to drop the institution from candidate or accredited status, or to deny initial accreditation or reaffirmation of accreditation, no later than the original deadline for compliance, if any, as stated in the Commission's letter. The Commission shall notify the chief administrator/commander of the institution as to the nature of the action and the procedure to be followed if an appeal is filed. The decision of the Commission is final, subject to the appeal procedure, and will be made known to the public. No institutional response is required; however, an institution may choose to follow the appeals procedure described in Section IV.E.3. below.

An institution that does not choose to appeal may comment in writing regarding the Commission's action provided the response complies with Commission procedures and is received by the Commission within 20 calendar days of the notice of the Commission's action. Any response received by the Commission within 20 calendar days shall be included in the Commission's final report to the appropriate federal and/or special agencies.

An institution that has been dropped may file a new application for candidate for accreditation status one year after the effective date of the Commission's decision to drop the institution.

The Commission need not follow any specific sequence or order in the assignment of statuses. Assignment to any one status is not required before an institution may be assigned to another status. Ordinarily, Warning, Probation, and Show Cause Order status will be assigned in succession to provide an opportunity for remediation and correction before a decision is made by the Commission to drop the institution from accreditation or candidate status. It is important to note that the original time period for compliance specified in the Commission's letter is the maximum length of time allowed to remedy a violation - including the successive assignment of other statuses that may occur during that period. However, where the Commission deems the circumstances sufficiently extreme to warrant a prompt response, it may drop an institution without the prior assignment of any status.

2. Appearance before the Commission

Since all Commission decisions are based upon written documents, there are normally two instances where officials of an institution might appear before the Commission:

- a. Upon request by the Commission for the purpose of answering questions concerning an accreditation matter.
- b. Upon approval of the Executive Director when the institution is making a special request of the Commission.

All requests to appear before the Commission **must** be submitted in writing to the Executive Director and be received at least 30 days prior to the scheduled meeting. Such a request **must** describe in detail why the appearance is necessary. Documentation supporting the request **must** be submitted with the letter.

The Executive Director may approve the request at which time the institution will be informed of the date, time, and place of the appearance. In the event the Executive Director defers action on a request to appear, the matter is taken before the Executive Committee for review and action.

3. Appealable Actions

Institutions that have filed a complete application for candidate status, institutions that are accredited by the Commission, and institutions that are seeking approval of a change of governance or control may appeal the following actions of the Commission:

- a. Denial of candidate status.
- b. Drop from candidate status.
- c. Decision to deny initial accreditation or reaffirmation of accreditation after the self-study is conducted and a team visit has been hosted.
- d. Decision to drop from accreditation (membership).
- e. Decision to deny approval of a change of governance or control.

An appeal **shall** be based on one or more of the following grounds:

- a. Errors and/or omissions in applying the Standards, Criteria, and/or Conditions of the Council were made by the evaluation team(s) and/or the Commission.
- b. Demonstrable bias or prejudice was displayed by one or more members of the Commission, which significantly affected the decision.
- c. The documentation before the Commission at the time of the negative decision was materially in error.
- d. The decision of the Commission was contrary to the substantial weight of the documentation.

If an institution is aggrieved by any one of the four actions listed above, the chief administrator/ commander of the institution, with the approval of the governing board of the institution, must give notice of intent to appeal such action to be received in the Commission office within 20 calendar days of the date of the notice of the Commission's action. The notice **shall** be submitted to the Commission's Executive Director in the form of a letter sent by certified mail or other signature-required delivery service. The letter **must** state the following:

- a. A request that an appeal board be convened;
- b. The specific grounds for the request with a statement explaining the reason(s) for each ground;
- c. Documentation (such as a copy of a resolution) showing the approval of such appeal action taken by the institution's governing board; and,
- d. A statement in the letter indicating the willingness of the institution to abide by the appeals conditions and procedures.

The request **shall** be accompanied by a cashier's check in the amount of \$35,000 to cover the necessary cost of the appeal. The \$35,000 consists of a \$5,000 notice-of-intent-to-appeal fee (non-refundable) and a \$30,000 deposit to cover the costs of the appeal board proceedings. Any funds left over from the deposit will be refunded to the institution. Should there be an outstanding balance after the deposit is applied, the institution **must** pay the outstanding balance.

Upon proper notice of intention to appeal, the prior status of the institution, if any, shall be restored and will remain the same pending the disposition of the appeal.

The Commission is responsible for defining the procedures to be used in the appeal process so as to ensure that the process is fair and equitable for all affected parties.

4. Resolution of Disagreements

a. Interpretation of Membership Agreements

As a condition of receiving any status with the Council, each institution agrees that agreements created by the Commission's granting such status **shall** be deemed to have been entered into in Fulton County, Georgia, and **shall** be interpreted in accordance with the laws of the State of Georgia. Further, each institution agrees that jurisdiction and venue for any action which might arise from any membership agreement between the institution and the Council, regardless of which party shall initiate the action, **shall** be exclusively in the United States District Court for the Northern District of Georgia or the state courts of Fulton County, Georgia, whichever of these courts shall have proper subject matter jurisdiction.

b. Litigation Bond

An institution that files suit against the Council **shall** be required to post a bond of \$100,000 per location. Should the court rule in favor of the Council, the institution **shall** pay all court costs, Council attorney fees, and all other costs incurred by the Council in its defense.

SECTION V

Obligations of Affiliation

Affiliation of an institution with the Council creates certain obligations that must be met by the institution. Those obligations are grouped and described below under two headings: Administrative and Substantive.

A. Administrative Obligations

1. Chief Administrator

The chief administrator is a senior military officer or civilian employee who serves as the administrative head of a federal or military institution and is the person with whom primary responsibility for institutional operation rests. The chief administrator is the first contact of record for the Council and is the person to whom official correspondence regarding accreditation will be addressed. The chief administrator holds the authority to requisition institutional resources and direct activities toward the achievement and maintenance of obligations of affiliation with the Council. The chief administrator must be a full-time employee of the institution and must maintain his/her office on-site at the main campus. (Chief administrators of federal and military institutions often carry titles such as: Commandant, Commander, President, Administrator, Director, Principal, etc.)

2. Accreditation Liaison Officer

Each institution must designate an accreditation liaison officer **by notifying the Council**. The accreditation liaison officer must be a permanent, full-time staff member at the main campus of the institution **- other than the chief administrator**. This is the person with whom the Commission staff will discuss accreditation matters concerning the institution when the chief administrator or commander is not available. However, when authorized as such by the chief administrator of a federal or military institution, the accreditation liaison officer may serve as the primary contact for the Council.

3. Official Communications

Only written communication from the Commission will be considered official. Official communications from the Commission to candidate or accredited institutions shall be transmitted to the main campus chief administrator, commander, or, if applicable, to the institution's accreditation liaison officer. Official communications from candidate or accredited institutions **must** be from the main campus chief administrator, commander, or, if applicable, from the institution's accreditation liaison officer and in written form. (Written communications may be transmitted to the Commission via email or forms provided on the Council web site.)

4. Requested Report or Documentation

Decisions are made by the Commission based on written evidence. **Self-certification (attestations) will not be accepted by the Commission as written evidence of compliance with any Condition, Criterion, or policy.**

Any report or documentation requested by the Commission **must** arrive in the Council office by the date due. Failure to submit any report or documentation requested by the due date **shall** be grounds for an institution to lose its candidate or accredited status.

5. Confidentiality of Materials

The accreditation of occupational education institutions by the Commission is an activity requiring a high degree of confidentiality. The findings of non-compliance (if any), suggestions, and other information relating to an institution are, by implied agreement, exchanged within an atmosphere of trust, confidentiality, and professional integrity. The Commission makes such information available to the participating institution and to other agencies, accrediting bodies, institutions, or individuals only upon the approval of the participating institution, pursuant to these conditions; as required by law; or as required by federal regulations applicable to accrediting agencies recognized by the U.S. Secretary of Education.

The participating institution may disseminate any of the information it receives from the Commission; however, experience has indicated such dissemination should occur only after the completion of the process leading to an action, certainly not during the process. A number of activities and cautions are employed by the Commission to assure integrity and institution/ Commission confidentiality.

6. Maintenance of Accreditation File

An institution that is accredited by the Commission **must** maintain a permanent accreditation file. The file **must** contain the following in chronological order:

- a. Copy of substantive correspondence between the institution and the Commission (COE/COEI) to include, but is not limited to, letters related to accreditation, reaffirmation of accreditation, substantive changes, and official actions of the Commission;
- b. Copy of the last Self-Study Report;
- c. Copy of the last accreditation visiting team report and all other team reports since the last accreditation visiting team;
- d. Copy of the institution's response report for the last accreditation team and other response reports to visiting teams since the last accreditation visiting team;
- e. Copy of substantive change applications since the last accreditation visiting team; and,
- f. Copy of **all** COE annual reports (including all supporting documentation) since the last accreditation visiting team.

Failure to maintain the accreditation file as requested will call into question the administrative capability of the institution.

7. Publication of Status with the Commission

An institution **must** be accurate in reporting its status with the Commission to the public. In catalogs, brochures, advertisements, web sites, an/or news releases, any reference made to its status with the Commission **must** be accurate and must include the name, and contact

information of the Commission as follows: Council on Occupational Education, 7840 Roswell Road, Building 300, Suite 325, Atlanta, GA 30350, Telephone: 770-396-3898 / FAX: 770-396-3790.

Any Federal institution that is found to misrepresent its status with the Commission **shall** issue a correction in an appropriate newspaper, web-site, and/or other forum to correct the misrepresentation. Documentation that the correction has been made **must** be submitted to the Commission office.

Each candidate or accredited institution when referring to its status with the Council on Occupational Education **must** use the appropriate choice of the two statements that follow:

(Name of Institution) is a Candidate for Accreditation by the Commission of the Council on Occupational Education.

(Name of Institution) is accredited by the Commission of the Council on Occupational Education.

Accredited institutions may use the accreditation seal of the Commission of the Council on Occupational Education.

The accreditation seal **must** be used with discretion. It is not to be used for advertising purposes, but rather to identify institutions as being members of a nationally-recognized accrediting agency. The seal may be used only on letterheads, catalogs, certificates, diplomas, transcripts, and web sites, and for employee orientation and command briefing activities. If the seal is used on an institution's web site, it must be linked to the Council's web site (www.council.org).

The Commission may publish, as it deems appropriate, through its Executive Director, information contained in official notification letters from the Commission to the institution which relate to the following:

- a. Granting candidate status or accreditation.
- b. Candidate status extension or accreditation reaffirmation.
- c. Candidate status termination or accreditation withdrawal.
- d. Notification by the Commission to an institution that there is or may be a violation of a Standard or Condition resulting in placement on special status or being dropped from candidate or accredited status.
- e. Denial of application for candidate status, accreditation, or a change of governance or control.
- f. Withdrawal from candidate or accredited status.

The Commission shall make public the correction of any misleading or incorrect information made public concerning the candidacy or accredited status of an institution, the contents of visiting team reports, or accrediting actions. Misinformation published in the official publications of the Commission shall be corrected in the next issue of the relevant publication. Any

misinformation submitted by letter to an institution relative to its status as a candidate for accreditation; its status as to meeting the Standards, Criteria, and/or Conditions of the Council; or the actions of the Commission toward the institution shall be corrected by letter. If the letter containing the misinformation was copied to any federal agency, state agency, another nationally recognized accrediting agency, or anyone else, the letter of correction shall be copied to every agency or person to whom the letter of misinformation was copied.

Likewise, should the Commission discover misleading or incorrect information published by institutions in candidate or accredited status concerning the contents of visiting team reports, accrediting actions of the Commission, or the candidacy or accredited status of the institution, it shall make public a correction of the misinformation. Additionally, the Commission shall notify applicable federal agencies, state agencies, and other nationally recognized accrediting agencies of the misinformation.

If an institution's operation, recruiting practices, or other actions become a matter of public or Commission concern, the Commission may announce, through its Executive Director, any action the Commission has taken and the basis for that action, including pertinent information in the possession of the Commission.

8. Voluntary Withdrawal of Status by the Institution

A candidate for accreditation or an accredited institution can withdraw its candidate or accredited status at any time by written notification to the Commission. The Commission considers only those documents submitted on institutional letterhead and signed by the chief administrator of the institution as 'official notification'.

Upon receipt of written notification of the intent to withdraw, the Council will send to the school a Withdrawal from Candidacy or a Withdrawal from Accreditation form. When the completed form is received by the Council the request to withdraw will be processed. The effective date of withdrawal from status will be the date the notification is received by the Council, or a future date as specified in the withdrawal form. Withdrawals from status will not be backdated prior to the date the Council receives the institution's official notification.

When an institution voluntarily withdraws its candidate status or accreditation, the Commission shall notify the U.S. Department of Education and other appropriate agencies of the institution's voluntary withdrawal within 30 days. Should the institution be under a violation status, the notice would indicate that voluntary withdrawal occurred while in that status.

Institutions that fail to submit official notification of their withdrawal from status will be listed as withdrawn by a date determined by the Commission based on any and all information available to the Commission at that time (i.e., email notifications from the institution or state/federal agencies).

Failure of a candidate or accredited institution to pay its dues, fees, penalties, evaluation costs, or other financial obligation to the Council within 90 days of the due date **will** be taken by the Commission as conclusive evidence that the institution has voluntarily withdrawn its candidate or accredited status. As indicated above, the notice of the institution's withdrawal for non-payment of its financial obligations shall be sent to the appropriate agencies within 30 days.

Institutions that have voluntarily withdrawn from candidate or accreditation status may file a new application for candidacy for accreditation one year after the effective date of withdrawal. An eligible representative of the institution must attend Candidate Academy-Part 1 prior to submitting the new application. (See Workshop Attendance Requirements for more information.)

Institutions that re-apply for membership with the Council must pay outstanding invoices, if any, from their prior status before approval for a new application for membership will be considered.

9. Payment of Dues and Fees

Federal institutions should generally follow the fee schedules outlined below. However, COE recognizes and is sensitive to the unique operating models employed by the Federal Community and will work with those institutions to find a fair and reasonable fee structure.

a. Dues for Candidates for Accreditation

Dues—Institutions that have applied to and have been accepted by the Commission as Candidates for Accreditation **must** pay annual dues. Dues are the same for candidates and accredited institutions. (See schedule in Section b. below.)

Initial Payment—When an institution makes application to the Commission, a check for the amount of the annual dues and application fees **must** be attached. The check is made payable to the “Council on Occupational Education.” The initial payment is applied to the fiscal year in which the institution is accepted as a candidate for accreditation with the exception that institutions accepted during the last 60 days of any fiscal year will have their initial dues payment credited to the next fiscal year.

Annual Payment—The annual dues for candidate institutions are payable upon receipt of an invoice from the Council on Occupational Education. Institutions will be invoiced prior to the first day of July for annual dues that apply to the fiscal year July 1 - June 30.

Refund Policy—An institution that makes application to the Commission and is not accepted as a candidate for accreditation is refunded the initial dues less the actual cost of the candidate visit to the institution and any other expenses incurred. An institution that withdraws its application for candidate for accreditation prior to being accepted will be refunded the dues less the cost of the candidate visit and any other expenses incurred. After an institution has been accepted as a candidate for accreditation, no refund of dues will be made. Application fees are non-refundable.

b. Dues for Candidate and Accredited Institutions

Annual Dues—Each candidate or accredited institution **shall** pay annual dues based on enrollment (Full-Time Equivalent or FTE) according to the applicable schedule below.

ANNUAL DUES	
<u>FTE</u>	<u>Federal Institutions</u>
**From 10 to 137	\$ 3,055
138 - 276	3,325
277 - 415	3,590
416 - 553	3,860
554 - 692	4,285
693 - 1,039	4,710
1,040 - 1,386	5,145
1,387 - 2,079	5,785
2,080 - 2,773	6,315
2,774 - 4,160	7,070
4,161 - 6,934	8,030
6,935 - 13,869	9,100

* One FTE is equal to 900 student contact (clock) hours, 45 quarter credit hours, or 30 semester credit hours.

** In some cases, a Federal institution may use an "Average-on-Board (AOB)" measure in place of FTEs in computing dues.

Non-Main Campus Dues—In addition to the annual dues based on total enrollment (FTE) or Average on Board enrollment (AOB), Federal institutions having non-main campus sites that are not exempt from annual dues shall pay \$750 for each site.

Annual Payment—Payment of annual dues for candidate and accredited institutions **must** be made upon receipt of an invoice from the Council on Occupational Education. Invoices are transmitted prior to July 1 of each year. Annual dues are for the fiscal year July 1 - June 30 and are due July 1.

Refund Policy—No refund of annual dues is made to a candidate or accredited institution.

c. Full-Time Equivalent (FTE)

Full-Time Equivalent (FTE) is a unit of measurement used by the Commission to define the amount of scheduled instruction that equates to one full-time student during one academic year. The Commission defines an FTE as 900 contact (clock) hours, 45 quarter credit hours, or 30 semester credit hours of scheduled instruction. The clock or credit hours used to calculate an institution's FTE must reflect coursework in which a student has enrolled and matriculated. The FTE does not include hours or credits transferred from other institutions or awarded as CLEP courses. In some cases, Federal institutions may use an "Average-on-Board (AOB)" measure in place of FTEs for computing dues. (See the *Policies and Rules of the Commission* for a discussion of the rationale for this definition.)

d. Cost of Institutional Evaluations

Institutions **must** reimburse the Council for all costs of institutional team visits (i.e., team visits for candidacy, initial accreditation, reaffirmation of accreditation, focused review, and substantive changes). Reimbursable items include the cost of transportation, lodging, and meals for visiting team members and staff members and/or Commission representatives. Specific procedures regarding deposits, reimbursement, and travel regulations are presented in the *Policies and Rules of the Commission*.

e. Fees

Fees shall be assessed according to the schedule below. Fees are non-refundable. Other fees apply to substantive changes (see chart on page 35).

Application for Candidate for Accreditation	\$ 3,000
Warning Status	500
Probation Status	750
Show Cause Order	1,000
Focused Review Visit.....	750
Notice of Intent to Appeal.....	5,000
Initial Accreditation	1,000
Renewal of Accreditation	1,000
Deposit for ANNOUNCED Focused Review Site Visits	3,000

f. Penalties

Failure to pay dues, fees, penalties, or any charges due within 30 days of due date	10% of the original amount due
Failure to pay fees, penalties, or any charges within 60 days of due date	Additional 20% of the original amount due
Failure to provide annual report or other report by due date	2,000
Failure to attend a workshop required by policy or action of the Commission within the specified time period.....	2,000
Failure to disclose a substantive change to the Commission	1,500
Failure to host a substantive change site visit within 180 days	1,500
Failure to provide a complete Application, Report, or Response.....	250

Federal institutions should work closely with COE to identify each perceived change consistent with intent and time lines described within this *Handbook*. Once confirmed as a substantive change, COE may consider fee reductions and/or waivers based on the special needs and circumstances of each institution.

g. Deposits

The Council, when requiring a deposit, may apply the unused portion of the deposit (if any) toward outstanding debt owed by an institution.

B. Substantive Obligations

1. Institution's Relationship with the Council

a. Institutional Ethics and Integrity

The Commission **must** be assured that any institution which seeks candidate status, accreditation, reaffirmation of accreditation, or approval of a change of governance or control conducts its affairs with acceptable standards of honesty and integrity. When the Commission has any cause to believe that a candidate or accredited institution has acted in an unethical or untruthful manner, it will evaluate the matter and take action as described in the policies governing statuses (Section IV.E.1. Possible Commission Decisions).

If an institution misrepresents itself in documents filed with the Commission for purposes of candidate status, accreditation, reaffirmation, or change of governance or control, the Commission will immediately sever its relationship with the institution and may publish the decision.

Institutions **must** meet all lawful obligations. Failure of an institution to conform to legal obligations imposed by governments and their agencies **shall** be cause for the Commission to remove the institution's candidate or accredited status. The Commission may publish an action taken for such cause.

b. Maintaining Eligibility Requirements

Each educational institution applying for affiliation with the Council **must** initially demonstrate that it satisfies each of the eligibility requirements to become a Candidate for Accreditation as stated above in Section III.A.2., Candidate for Accreditation: Eligibility Requirements. Further, each educational institution that applies for accreditation **must** demonstrate that it satisfies each of the eligibility requirements for initial accreditation as stated above in Section III.B.1., Accreditation: Eligibility Requirements. An institution **must** continue to meet the requirements for both candidacy and accreditation in order to maintain its accredited status with the Council.

c. Reports

(1) Annual Report

Continued candidate or accredited status is determined annually by Commission approval of annual reports. Candidate institutions **must** show progress toward meeting Standards and Criteria; and accredited institutions **must** show that they are complying with Standards, Criteria, and Conditions adopted by the Council.

(2) Ancillary Institutional Report

The Commission may request an ancillary report from an institution if, in the judgment of the Commission, substantive changes, the institution's operation becoming a matter of public concern, or conditions justify a re-evaluation of the school's status. Topics or areas of concern to be addressed in the report will be delineated when the report is requested.

An institution that has not had its response to an ancillary team report accepted by the Commission as having complied with all issues under the re-evaluation of its status within 12 months following the initial review by the Commission, shall be dropped from candidate or accredited status.

d. Comprehensive Review for Continuation of Accreditation (Reaffirmation)

Reaffirmation **must** occur from two to six years after initial accreditation or any subsequent reaffirmation decision. The time interval for reaffirmation is determined by the Commission as a part of its accreditation or reaffirmation decision. Institutions **must** meet the same requirements for reaffirmation as required for initial accreditation (see Section III.B.1., Accreditation: Eligibility Requirements). At the discretion of the Commission, the institution may be required to undergo reaffirmation earlier than the previously determined year.

Consultants, if retained, must not be present during Council site visits required for candidacy, accreditation, focused review, or approval of substantive changes.

Institutions seeking reaffirmation **must** complete a Self-Study Report and host a visiting team. Reaffirmation decisions are made by the Commission following a complete review of the Self-Study Report, the visiting team report, the response report, and other sources of information resulting from the institution's completing a Self-Study Report and hosting a visiting team.

An institution that has not been reaffirmed within 12 months following the initial review by the Commission **shall** be dropped from accreditation.

e. Ancillary Visits

Ancillary visits are conducted when certain substantive change applications are received or when, in the judgment of the Commission, a re-evaluation of the institution's compliance with the Commission's Standards, Criteria, Conditions, policies, and/or procedures is necessary (cost to be borne by the institution).

Consultants, if retained, must not be present during Council site visits required for candidacy, accreditation, focused review, or approval of substantive changes.

Accreditation by the Commission is an expression of confidence that an institution is effectively achieving its stated mission. Circumstances, including actions of an institution which become a matter of constituent or Commission concern, may require an ancillary visit by the Commission.

The Commission may require the institution to host an ancillary visit or may require the institution to complete a new Self-Study Report and host a visiting team earlier than previously scheduled if, in the judgment of the Commission, substantive change(s), institution's operation becoming a matter of constituent concern, or conditions justify a re-evaluation of the institution's status.

The team may evaluate any area of the institution's compliance with the Standards, Criteria, and Conditions of accreditation. The institution shall be provided a copy of the team's report and shall submit its response to the team's findings of non-compliance for receipt in the Council office within 30 days from the date that the report is transmitted from the Council office.

(The Commission reserves the right to limit the length of institutional responses to official team reports or other requests for documentation and to require workshop attendance.)

An institution that has not had its response to an ancillary team report accepted by the Commission as having complied with all issues under the re-evaluation of its status within 12 months following the initial review by the Commission, shall be dropped from candidate or accredited status.

Disruption of an institution by forces beyond its control, although not excused, does not result in summary loss of accreditation. Prolonged inability, for whatever reasons, to conduct its programs **will** require a review of the institution and a reconsideration of its candidate or accredited status. When the alleged circumstances appear to be a violation of Standards, Criteria, or Conditions adopted by the Council, the Executive Director reviews the matter with the Executive Committee and may conduct an inquiry and/or arrange for an ancillary visit.

f. Substantive and Other Changes

(1) Planned and Unplanned Substantive Changes

A substantive change is one which significantly alters an institution's scope, programs, location, standing with another nationally recognized accrediting agency, federal agency, financial stability, governance, or control. A substantive change may be planned or unplanned. A planned substantive change within a candidate or accredited institution **must** be approved by the Commission before the change takes place.

Institutions planning a substantive change **must first** submit to the Council a notice of intent to implement the change at least 30 days prior to submitting the substantive change application. The institution must then submit an application for approval (if required) no later than 90 days prior to the change being implemented. Failure to submit applications in a timely manner may delay approval. Approval for substantive changes must be granted by the Commission before the changes can be implemented. After applications for approval are received, the Commission provides consulting services to the institution to ensure that an orderly transition, consistent with the procedures of the Commission, is accomplished. The institution **must** not provide a consulting honorarium to the Commission representative or team members but reimburses all expenses.

A moratorium will be placed on the acceptance, processing, and approval of ALL substantive changes beginning 6 months prior to the original scheduled dates of accreditation team visits through the date the Commission grants initial accreditation or reaffirmation of accreditation. Waivers of this policy may be granted when changes are mandated by the federal authority over the institution.

Failure to implement approved substantive changes within 180 days of the effective date of Commission approval will result in the revocation of the initial approval.

Consultants, if retained, must not be present during Council site visits required for candidacy, accreditation, focused review, or approval of substantive changes.

The Commission **must** be notified within five working days after an unplanned substantive change occurs. If applicable, a copy of the letter and/or document informing the institution of the unplanned substantive change **must** accompany the notification to the Commission. Within thirty days of notifying the Commission of an unplanned substantive change, the institution must submit to the Commission applications required by the Commission for such a change. The Executive Director will then refer the application(s) to the Commission for action at its next meeting. The Commission reserves the right to require a preliminary visit to the institution prior to granting initial approval.

Substantive change applications are reviewed by the staff, and approval may be given by the Executive Director unless otherwise indicated. The Commission has reserved the authority to approve certain specified substantive changes. The approval by the Executive Director is subject to approval by the Commission.

A substantive change may require a visit by representatives of the Commission. When a visit is required, the team will confirm the accuracy of information provided by the institution in its substantive change application and may evaluate the institution for compliance with any of the Standards, Criteria, and Conditions adopted by the Council. Final approval for planned substantive changes requiring site visits must be granted before additional applications for changes requiring site visits will be accepted.

An institution that has not received initial or final approval of a substantive change application within 12 months following the initial review of the initial or final approval documentation shall be denied initial or final approval for that change. This circumstance may also call into question the candidate or accredited status of the institution.

Failure to notify the Commission of a substantive change may result in the imposition of a penalty or may cause loss of candidate or accredited status.

Initial approval for substantive changes will be revoked should the institution fail to implement the approved change and/or fail to host any required site visit within 180 days from the effective date of the initial approval. The institution will then be placed on the next Commission agenda for consideration of adverse action and penalties may apply.

An application for a planned substantive change **shall not** be accepted until any unplanned substantive change has been resolved.

Substantive change applications will not be processed, whether new or pending, before the resolution of certain restrictive statuses (probation or show cause), during the pending of an appeal of a decision of the Commission, or when an institution is past due on an invoice for money owed to COE.

Institutions that make or propose substantive changes will be required to complete a new comprehensive evaluation of its compliance with Commission Conditions, Standards, Criteria and policies when those changes compromise its ability to fulfill its responsibility to deliver promised instruction and support services to the students it serves.

The Commission will impose this requirement when it determines that substantive changes made or proposed negatively impact the institution's ability to maintain adequate and appropriate educational programs, physical facilities for students and staff, student services and activities, learning resources, adequate numbers of administrative staff, faculty, and support staff.

The Commission will notify the institution when this requirement is imposed and will require the institution to complete a new institutional Self-Study Report and host a site visit to confirm its compliance with accreditation Conditions, Standards, Criteria, and policies. The site visit must be conducted within 18 months from the date of the Commission's notice to the institution in order for the institution to continue its status with the Commission.

Substantive Changes for the Federal Community *	Documentation Required		Commission Approval Required	Site Visit Required	Fee Required	Notify Federal COPPOC
	Letter of Notification	Application				
GOVERNANCE/CONTROL						
Change in Chief Administrator, Commander, or Accreditation Liaison Officer assigned to the institution	•					•

Permanent Closing of a Non-Main Campus Site	•				\$500 Per Location	
PROGRAMMATIC						
Change of Programmatic Scope	•					
Institutional Distance Education Delivery		•	•	•	\$1,000	

*Federal institutions should work closely with COE to identify each perceived change consistent with intent and time lines described within this *Handbook*. Once confirmed as a substantive change, COE may consider fee reductions and/or waivers based on the special needs and circumstances of each institution.

IMPORTANT: A moratorium will be placed on the acceptance, processing, and approval of ALL substantive changes beginning 6 months prior to the original scheduled dates of accreditation team visits through the date the Commission grants initial accreditation or reaffirmation of accreditation.

Unplanned substantive changes include but are not limited to the following.

- (a) Loss of candidate or accredited status, or being placed on public probation by another nationally recognized accrediting agency, either institutional or programmatic, while a candidate or accredited with the Commission.
- (b) Loss of good standing with a regulatory or governing body.
- (c) Findings of a regulatory/oversight agency (e.g. U.S. Department of Education or nationally recognized accrediting agency) which may affect operations and/or institutional stability.
- (d) The permanent or temporary closing of the main campus or an additional site (extension or branch).
- (e) Substantial disruption of classes due to any number of reasons including natural disasters (hurricanes, floods, earthquake) that may cause significant degradation in operations or the temporary displacement of students to alternative learning sites.
- (f) Unplanned change of location.

An unplanned substantive change shall be reviewed promptly to determine if the candidate or accredited status should be withdrawn.

- (2) Other Changes: Institutions having status with the Commission should inform the Commission within five working days of any change which would affect communication between the Commission and the institution. Such changes shall include but are not limited to:
 - (a) Change in mailing address.
 - (b) Change in on-site chief administrator, commander, or accreditation liaison officer.
 - (c) Change in email address of on-site chief administrator, commander, and/or accreditation liaison officer.
- (3) Change to Degree-Granting Status

If a candidate or accredited institution begins preliminary discussions that may result in the institution initiating an applied associate degree program, it **must** demonstrate that the program meets applicable Conditions and accreditation Criteria specified in the *Handbook of Accreditation*.

An application must be submitted for approval by the Commission. The application will require documentation that includes, but is not limited to, the following:

- (i) Authorization for the degree
- (ii) Needs assessment and implementation schedule
- (iii) Syllabi
- (iv) Proposed publication of new program(s) including catalogs, brochures, etc.
- (v) Faculty credentials
- (vi) Budgetary information
- (vii) Facilities requirement(s)

Upon receipt of a complete application, including required documentation and application fee, the Executive Director shall conduct a review of the application in accordance with the procedures outlined in the *Policies and Rules of the Commission* and shall refer the application to the Commission for review and action and may request additional documentation.

An institution may apply for subsequent associate degree programs only after final approval of the initial associate degree program has been granted by the Commission.

g. Non-Main Campus Sites

A candidate or accredited institution may offer programs at multiple sites to achieve its mission. If an institution conducts educational activities at one or more sites in addition to its main campus, it **must** comply with the definitions and requirements below in designating the type for each site. Procedures for obtaining approval of additional sites are specified by the Commission and presented in the *Policies and Rules of the Commission*.

The Commission does not approve sites where work-based activities such as internships, externships, clinicals or apprenticeships occur. (See VII. Definitions/Work-Based Activities.)

Non-main campus sites approved by the Commission must offer instruction on a continuous basis. Non-main campus sites must demonstrate that at least 50% of the FTE at each site is derived from enrollment in traditional, non-VESL programs.

If any site fails to have students in continuous attendance, except for regularly scheduled holidays and breaks, the institution must notify the Commission of the status of the site (i.e., closure, suspension, or other).

A **branch** of a main campus is a subordinate site, not a main campus. The following requirements describe the characteristics of a branch campus (as opposed to any other type of non-main campus site).

A branch campus must:

- (1) Operate under the same federal authority as the main campus;
- (2) Operate under the supervision of a full-time, on-site administrator who reports to the chief administrator at the main campus;
- (3) Bear the same name as the main campus, and must expand the name to clearly identify different locations or specific program offerings of the branch with approval from the Commission;
- (4) Meet educational requirements and operational policies of the main campus;
- (5) Meet the following publication requirements:
 - (a) Must not issue a separate catalog, but may supplement the main campus catalog. (Institutions accredited first by another nationally recognized accrediting agency that requires a separate branch catalog may issue such as long as the institution is accredited by the other accrediting agency.);
 - (b) Ensure that the relationship between the branch campus and the main campus of the institution is clearly specified in institutional publications;
- (6) Ensure that the complete name of the main campus and the branch is identified in publications and advertisements when using a campus name;

- (7) Keep duplicate records on personnel, financial matters, student attendance, and student educational progress and outcomes data at the main campus;
- (8) Provide a full range of student services and activities and comply with Criteria of Standard 10 – Student Services and Activities; and,
- (9) Maintain the educational integrity of the institution and must not endanger its compliance with the Standards, Criteria, and Conditions adopted by the Council;

An **extension** of a main campus is a subordinate site, not a main campus. The following requirements describe the characteristics of an extension campus (as opposed to any other type of non-main campus site).

An extension campus must:

- (1) Operate under the same federal authority as the main campus;
- (2) Be located within a fifty-mile radius of the main campus;
- (3) Be directly supervised and controlled by the main campus;
- (4) Maintain staff who are limited primarily to instructors and support staff;
- (5) Maintain personnel and student records at the main campus; and,
- (6) Have program offerings included in the main campus catalog.

Other Non-traditional Means to Deliver Quality Education/Training: The Commission recognizes that accredited institutions within the Federal Community are increasingly being asked to employ a wide-variety of means outside the traditional campus structure (noted above) to meet global demands for education and training. In doing so, accredited institutions may employ any number of innovative and responsive approaches to include, but not limited to: Learning Centers, Extended Learning Sites, Remote Classrooms, Satellite Classrooms, Mobile Training and/or Rapid Deployment Training Teams.

Irrespective of the term or approach used to deliver training, it is incumbent upon the accredited institution to ensure that any instruction, offered as part of an approved program, is systematically overseen to ensure that it is of high quality and comparable with that offered at the main, branch, or extension campus.

Further, should an informal site which traditionally hosts non-continuous training evolve over time to host continuous training, the accredited institution, at a minimum, must notify the Commission. Through that formal notification process, the Commission will work closely with the accredited institution to shape appropriate definition, recognition, approval, and/or review procedures going forward.

Similarly, other types of distributed training such as emerging synchronous or asynchronous e-learning opportunities must also be reported to the Commission.

For locations and modes of instruction, governance **must** originate from the main campus.

Formal instruction delivered at any site used by an accredited institution must be in compliance with the Standards, Criteria, and Conditions adopted by the Council. Failure to comply with these Standards, Criteria, and Conditions jeopardizes the accreditation of the main campus.

h. Converting a Branch to a Main Campus

A branch must exist for two years with all services of a main campus and must operate in its accredited status with the Commission for one year (of the two years) before being eligible to apply to be a main campus.

Upon receipt of a satisfactorily completed application and a check for the application fee, the Executive Director shall review the application and may request additional documentation or refer the application to the Commission for action at its next meeting. The Commission reserves the right to require a preliminary visit to the main campus and the branch prior to granting initial approval for the conversion of a branch to a main campus.

Within 18 months after the initial approval of the conversion of a branch to a main campus, the institution must complete a Self-Study Report and host a visiting team. The visiting team will submit a written report to the Executive Director within 30 days after completing the site visit. A copy of the team report will be transmitted to the institution. The institution must submit a response to all findings of non-compliance to the Executive Director for receipt within 30 days of the date that the report is transmitted to the institution.

Cost of the on-site evaluation will be borne by the institution. The Executive Director will determine the amount of the deposit for the team site visit that must be conducted.

The Commission shall review the application, Self-Study Report, team report, response report, and other sources of information, and will make a decision on final approval of the conversion of the branch to a main campus.

i. Change of Location

A change of location is defined as a physical relocation of an existing main, branch, or extension campus.

An institution desiring to relocate a main, branch, or extension campus **must** submit an application to the Commission for initial approval at least **90** days prior to the change of location unless the move is an unplanned relocation (see Section V.B.1.f., Substantive and Other Changes). An institution planning to establish or change the location of a campus need only provide notification via a letter.

COE accredited Federal institutions moving as a result of Base Realignment and Closure (BRAC) actions should work very closely with COE to identify the appropriate reporting requirements and the sequence of actions needed to successfully maintain accreditation during such transitions.

The Commission shall prescribe the procedures for obtaining approval of a change of location and publish them in the *Policies and Rules of the Commission*.

j. Closure or Recombination through Base Realignment and Closure (BRAC)

Closing or realigning educational institutions requires extensive planning particularly if it involves reorganizing or integrating one formally independent institution within another formally independent institution (either of which may have been previously accredited).

The Commission expects the institution's governing board to use the same planning and responsible leadership during BRAC relocations, closures, and mergers as with any other planned or unplanned substantive change. For this reason, such a decision requires specific plans for providing, in appropriate ways, for the students, faculty, administrative staff, and support staff. Depending on the situation, such complex mergers, relocations, and/or closures will require various combinations of applications, site visits, and/or fees. To help the Federal Community navigate through these uncertain waters, COE stands ready to assist its Federal institutions impacted by the BRAC process.

Institutions **must** comply with federal rules, regulations, and guidelines regarding the closing of an educational program or an institution.

2. Institution's Relationships with Other Constituencies

a. Transfer of Credit

Institutions that elect to accept credit earned from other sources must verify that the source of the credit accepted is accredited by an agency recognized by the U.S. Department of Education or whose acceptance is required by a state or federal approving agency.

b. Recruitment

Many Federal institutions may not specifically control the recruitment process, but for those that do, the guidance below should be followed.

- (1) Recruitment activities conducted by an institution **must** be truthful and avoid any false or misleading impressions of the institution, its programs and services, or employment.
- (2) The institution clearly defines and publishes a policy regarding the transfer of students between programs within the institution and the transfer of students from other institutions and assures this information is available to prospective students prior to enrollment.
- (3) Information about the institution's academic courses/programs, prerequisites, and associated policies are made available to prospective students prior to enrollment.
- (4) Recruitment practices must assure that, prior to enrollment, prospective students are informed of the costs, equipment, services, time, and technical competencies, if any, required by its programs, including (if applicable), personal data collection and processes associated with verification of student identity. (Institutions must follow regulations established by the Federal government concerning personally identifiable information [PII].)

The following practices in student recruitment are prohibited:

- (1) Misrepresenting opportunities for advancement.
- (2) Misrepresenting abilities required to complete intended programs.
- (3) Misrepresenting transfer of credit to another institution.
- (4) Misrepresenting its accreditation status.

c. Requirements Applicable to Advertising/Marketing

Candidate and accredited institutions must demonstrate compliance with the following requirements for advertising programs:

- (1) Media used by an institution must be truthful and presented with dignity to avoid any false or misleading impressions of the institution, its programs and services, or employment.
- (2) The institution must be emphasized more than accreditation status in promotional and institutional materials.
- (3) Advertising seeking prospective students that is placed by the institution, its representatives, or third parties must appear under “instruction,” “education,” “training,” or a similarly titled classification and shall not be published under any “help wanted” or “employment” classification.
- (4) Advertisements placed by the institution or its representatives through direct mail, radio, television, internet, or directories seeking prospective students must clearly indicate that education is being offered, and shall not, either by actual statement, commission, or intimation, imply that prospective employees are being sought.
- (5) Media criticism toward other institutions is prohibited.
- (6) Printed bulletins or other promotional information must be specific with respect to the prerequisites for admission to the institution’s programs, the curricula, the content of courses, and the graduation requirements.
- (7) The institution must accurately portray its physical facilities and educational programs on web sites, in bulletins, and other publications, whether printed or online.
- (8) A record or copy of all promotional and advertising material must be kept on file from one accreditation team visit until the next.
- (9) Candidate and accredited institutions assume full responsibility for representations made by its recruiting personnel or other employees in recruiting students on its behalf.

d. Contractual Arrangement

An accredited institution may be asked to submit to the Commission for review and/or approval copies of contracts existing between the institution and any agency, corporation, institution, or individual when such contracts involve instruction, recruiting, or consulting services.

The role of contractors hired by candidate/accredited institutions must exclude the authority to make official decisions for the institution or to serve in the role of accreditation liaison officer for the institution. Furthermore, contractors employed by the federal government shall not be used for the performance of inherently governmental functions.

e. Complaints

Federal institutions should use the appropriate chain of command and associated internal complaint resolution processes widely available through the government. Should those avenues not resolve a complaint or should a complainant choose to bypass such avenues then they will be handled in the manner as noted below.

The Commission reviews all written, signed complaints that allege non-compliant activities and practices of applicant, candidate, or accredited institutions. This procedure is described in detail in the *Policies and Rules of the Commission*.

In instances where the nature of the complaint requires immediate action, the Executive Director, with concurrence from the chair of the Commission, may take emergency measures to determine the facts and present them either to the Executive Committee or to the Commission. This may include but is not limited to a site visit. Based on the response of the institution or the findings presented by the Executive Director, the Commission will then review the complaint and act appropriately. The Commission may review any complaint (written or oral) that alleges a safety or health problem at an institution.

The Commission determines its own methods of review and action. It will not intervene on behalf of individuals in cases of disciplinary action or dismissal, or act as a court of appeals in such matters as admission, graduation, and similar points of issue. The Commission will also transmit to the appropriate agency validated complaints and/or findings when these are potential violations of law, statute, or regulation and so inform the institution.

The Commission may, as a result of the report of an evaluation team, an interim team, or special deliberations, withhold or withdraw candidate or accredited status. The institution has the right to appeal the decision.

3. Institutional Relationships to Federal Requirements Applicable to Accreditation

Since the Commission is an accrediting agency recognized by the U.S. Secretary of Education, certain requirements of Federal Regulations must be observed with respect to institutions that can be considered for candidacy or accreditation. There are also Federal Regulations that are imposed on the Commission if candidacy or accreditation is granted to institutions under certain conditions. An institution that seeks candidacy or accreditation with the Commission **must** conform to or allow the Commission to conform to these requirements.

a. Requirements Applicable to Applicants for Candidacy or Accreditation

- (1) The institution is not the subject of an interim action by the Federal government potentially leading to the suspension, revocation, withdrawal or termination of the institution's legal authority to provide postsecondary education in any state in which it operates.
- (2) The institution has not had its instructional authority suspended, revoked, withdrawal or terminated, even if the required due process procedures have not been completed in any state in which it operates.
- (3) The institution has not been denied candidacy or accreditation by a nationally-recognized accrediting agency within the previous 24 months.

- (4) The institution has not voluntarily withdrawn its candidacy or accreditation while not in good standing from a nationally recognized accrediting agency within the previous 24 months.
- (5) The institution has not had its candidacy or accreditation withdrawn or been placed on public probation by a nationally recognized accrediting agency within the previous 24 months.
- (6) The institution is not the subject of an interim action by another accrediting agency potentially leading to the suspension, revocation, or withdrawal of candidacy or accreditation.
- (7) The institution has not been notified of the loss of any agency's accreditation even if the due process procedures have not been completed.
- (8) The institution describes itself in identical terms with regard to identity (i.e., main campus, branch campus, branch campus to main campus relationship), mission, governance, programs, degrees, diplomas, certificates, personnel, finances, and constituents to federal, state, and other agencies, including accrediting agencies.
- (9) In order to provide the public an opportunity to comment on an institution's qualifications for status with the Commission, an institution being considered for candidate for accreditation, initial accreditation, or reaffirmation of accreditation **must** give notice at least sixty (60) days prior to hosting the candidate or accreditation team visit. The notice must be posted on the home page of the institution's web site and within at least one print media source relevant to the Federal Community. The notice **must** state that the institution is applying to become a candidate for accreditation or for initial or reaffirmation of accreditation with the Commission of the Council on Occupational Education. In addition, it **must** state that persons wishing to make comments should either write to the Executive Director of the Commission, Council on Occupational Education, 7840 Roswell Road, Building 300, Suite 325, Atlanta, Georgia 30350, or submit their comments through the Council's web site (www.council.org). Persons making comments **must** provide their names and mailing addresses.

b. Requirements Applicable to the Commission

- (1) The Commission will not grant candidacy, initial accreditation, or reaffirmation of accreditation to an institution if it knows, or has reasonable cause to know, that an institution applying for candidacy or accreditation (initial or reaffirmation) is the subject of one of the following actions of a recognized institutional accrediting agency or state agency:
 - (a) A pending or final action brought by a state agency to suspend, revoke, withdraw, or terminate the institution's legal authority to provide postsecondary education in any state in which it operates.
 - (b) A decision by a recognized accrediting agency to deny accreditation or candidacy.

- (c) A pending or final action brought by a recognized accrediting agency to suspend, revoke, withdraw, or terminate the institution's accreditation or candidacy.
 - (d) Probation or an equivalent status imposed by a recognized accrediting agency.
- (2) Unless the Commission extends the time period for compliance, with good cause, an institution **must** bring itself into compliance with the Standards, Criteria, and/or Conditions of the Council within 12 months immediately following the first deferral of action by the Commission. The Commission will take adverse action for failure to come into compliance. (See Section VII for definition of 'good cause'.)
 - (3) The Commission will submit a summary of the Commission's major activities during the previous year upon request from the Secretary of Education.
 - (4) The Commission shall maintain complete and accurate records of its last review of each institution and an accurate, permanent record of its decisions with respect to candidate and accredited institutions.
 - (5) The Executive Director shall notify, at the same time, the Secretary of the U.S. Department of Education, the appropriate state licensing or authorizing agency, the appropriate accrediting agencies, and the public (within 24 hours), but no later than 30 days after:
 - (a) Accepting an institution as a candidate for accreditation, accrediting an institution, or reaffirming accreditation of an institution.
 - (b) Any final decision to place a candidate or accredited institution on Warning, Probation, or Show Cause.
 - (c) A summary of any review resulting in a final accrediting decision involving denial, termination or suspension of candidacy or accreditation together with the comments of the affected institution or notification that the institution was provided the opportunity to provide comments.
 - (d) Being informed by an institution that it is voluntarily withdrawing from candidacy or accreditation.
 - (e) An institution allows its candidacy or accreditation to lapse.
 - (6) The Executive Director shall notify the Secretary of the U.S. Department of Education, the appropriate state licensing or authorizing agency, and the appropriate accrediting agencies at the same time it notifies an institution if the Commission makes a final decision to deny or withdraw candidacy or accreditation or take other adverse action against an institution.
 - (7) The Executive Director shall notify the public within 24 hours of its notice to the institution if the Commission makes a final decision to deny or withdraw candidacy or accreditation or take other adverse action against an institution.
 - (8) No later than 30 days after a final decision to deny, limit, suspend, or withdraw the candidacy or accreditation of an institution, the Executive Director shall make available to the Secretary of the U.S. Department of Education, the appropriate state licensing or authorizing agency, and the public a summary of the Commission's decision.

- (9) As soon as the annual report of the Council on Occupational Education is printed each year, a copy of the report will be submitted to the U.S. Secretary of Education.
- (10) Once it determines that it needs to make changes to its Standards, the Commission will initiate action within 12 months to do so and will complete that action within a reasonable period of time. Furthermore, before any changes to Standards are finalized, the Commission will provide notice to all relevant constituencies and other interested parties of the changes the Commission proposes to make and will provide those parties the opportunity to comment on the proposed changes. All comments submitted regarding proposed changes to the Standards will be taken into account.
- (11) All proposed revisions in the Standards, Criteria, Conditions, and/or procedures of the Council will be submitted to the U.S. Secretary of Education at the same time that they are submitted to the membership for consideration if the revisions might alter the Council's scope of recognition or its compliance with the requirements for submission of information to the Secretary. Additionally, the Council will post these actions on its web site (www.council.org) in order to encourage input from potential employers and the general public.

c. Non-Discriminatory Policy of the Council

Federal institutions should first bring any EEO issue through their Agency, Service or DoD specific EEO focal point. If the issue is not resolved at that level or the complainant chooses to bypass that process they will be handled as noted below.

The Council does not discriminate on the basis of sex, race, color, national origin, age, or disability in any of its programs or activities.

Any individual who believes that he or she has been discriminated against because of his/her sex, race, color, national origin, age, or disability should immediately contact the Executive Director, Dr. Gary Puckett, who is the Council's coordinator for Title IX compliance. Dr. Puckett can be reached at 7840 Roswell Road, Building 300, Suite 325, Atlanta, Georgia 30350, (770) 396-3898, extension 105. Complaints alleging discrimination on any of the above bases may also be made to:

SECTION VI

Accreditation Standards, Objectives, and Criteria

The Standards, Objectives, and Criteria for accreditation by the Council are derived from the mission, goals, and objectives of the Council as an accrediting agency. (See Section II.B. above.)

The specific Objectives of the COE accreditation process, as used in evaluating providers of occupational education, are grouped within 10 categories or “Standards” representing institutional aspects to be evaluated by the COE accreditation process. The Objectives subsumed by each Standard provide more specific delineation of the scope of each Standard and the basis for deriving the Criteria addressed in conducting an institutional evaluation for accreditation. The Standards are the following:

Standard 1 - Institutional Mission

Standard 2 - Educational Programs

- A. Admissions
- B. Programs
- C. Instruction

Standard 3 - Program and Institutional Outcomes

Standard 4 - Strategic Planning

Standard 5 - Learning Resources

- A. Media Services
- B. Instructional Equipment
- C. Instructional Supplies

Standard 6 - Physical Resources and Technical Infrastructure

Standard 7 - Financial Resources

Standard 8 - Human Resources

- A. General
- B. Faculty
- C. Administrative and Supervisory Personnel
- D. Instructional Support Staff
- E. Non-Instructional Support Services

Standard 9 - Organizational Structure

Standard 10 - Student Services and Activities

The Criteria listed in each Standard support the achievement of Objectives stated at the beginning of each Standard.

STANDARD ONE

Institutional Mission

Objectives of Accreditation Related to “Institutional Mission”

1. To assure that the institution’s primary mission is career development and technical education.
2. To assure that the current mission is clearly stated and is publicly available.
3. To assure that the mission is formulated with broad-based participation by the communities of interest served and promoted through appropriate and relevant channels.

Criteria of Accreditation Related to “Institutional Mission”

1. The primary mission of the institution is to instruct students to such competency levels essential to success in their occupations, including job knowledge, job skills, work habits, and/or attitudes.
2. The institution’s mission is clearly, concisely, and consistently stated in written form and represents the official statement of the institution.
3. The institution has a hard-copy and/or online publication which it uses to accurately presents its mission statement and the educational courses and/or programs offered to achieve its mission.
4. The current mission statement is formulated with broad-based participation by the communities of interest served and is promoted to those communities through printed materials, online resources, and in-person forums.

STANDARD TWO

Educational Programs

Objectives of Accreditation Related to “Educational Programs”

A. Admissions

1. To verify that admissions policies are clearly stated, published, and administered uniformly.
2. To assure that the admissions policies are relevant to the student’s ability to complete the educational programs offered, including programs delivered at a distance.

B. Programs

1. To verify that the educational programs offered by the institution are congruent with the mission of the institution.
2. To ensure that each course and/or program incorporates current occupational requirements in its instruction through involvement of the constituencies served.
3. To assure courses and/or programs are objective-based and evaluated annually.
4. To assure currency of instructional content.
5. To assure that programs provide for timely and meaningful interaction among faculty and students.

C. Instruction

1. To assure that instruction is competency-based, including current knowledge, skills, and work ethics relevant to the occupations for which the programs prepare students.
2. To assure that competencies are taught with equipment and in settings reflecting current workplace requirements.
3. To require documentation that instruction for each course and/or program is organized and appropriately documented to achieve its objectives.
4. To require that methods of evaluating individual student achievement are used to document student progress.
5. To require that work-based activities have objectives appropriate for the respective programs and are properly planned and supervised.

Criteria of Accreditation Related to “Educational Programs”

A. Admissions

1. Information about the institution’s academic courses/programs, enrollment, prerequisites, related information technology, and associated policies are current, accurate, clearly stated, and consistently recorded in printed and online publications.
2. Course and/or program requirements offer reasonable expectations for successful completion regardless of the delivery mode.

B. Programs

Occupational education courses and/or programs align with:

1. Governing policies, directives, guidance, and instructions; and,
2. The mission of the institution.

A systematic process (e.g. Instructional Systems Design process) has been implemented to document that:

3. Each course and/or program and the respective objectives meet the current occupational training needs of the people served by the institution (business and industry);
 4. Each course and/or program has clearly stated objectives;
 5. The objectives and content of courses and/or programs are current;
 6. Coursework is qualitatively and quantitatively consistent and relevant (i.e. using multiple sources of information and data to show instructional effectiveness - e.g. surveys, technical accuracy reviews, statistical validity, inter-rater or inter-observer reliability, test-retest reliability, content validity, etc.);
 7. Course and/or program objectives are congruent with training content;
 8. Assessment of student achievement aligns to the course and/or program objectives; and,
 9. Objectives for each educational course and/or program are evaluated annually.
10. **For coursework delivered via distance education:** Distance education courses and programs are identical to those on campus in terms of the quality, rigor, breadth of academic and technical standards, completion requirements, and the credential awarded.
 11. The institution continues its courses or programs, regardless of the delivery mode, for a period sufficient to enable admitted students to complete coursework within the allotted time frame.

Each course and/or program offered by the institution:

12. Is approved and administered under established institutional policies and procedures with oversight from a campus administrator.

13. Has appropriate and continuous involvement of on-campus administrators and faculty in planning and approval.
14. Has one or more relevant and applicable evaluation methodologies, as determined by the institution, that reflects established doctrine and measures applicable competencies.
15. Has measures of achievement of the student learning outcomes.
16. Is described in catalogs or brochures and include relevant requirements for enrollment, academics, and related information technology.
17. Provides for timely and meaningful interaction among faculty and students as evidenced by student evaluations/assessments of instruction, instructor observations, etc.

C. Instruction

1. Instructional courses and/or programs provide education and training in the competencies and occupational skills essential to success in each occupational training area, including job knowledge, job skills, work habits, and attitudes.
2. The sequence of instruction required for course and/or program completion (lecture, lab, and work-based activities) is determined using an instructional design process.
3. Academic competencies and occupational skills related to education and training activities (procedure, technique, or operation) is logically organized to maximize the learning competencies essential to success in the occupation.
4. Job-related health, safety, and fire-prevention are an integral part of instruction and are incorporated into curricula as is appropriate to the occupation.
5. Orientation to technology is provided and technical support is made available to students.
6. To develop skill proficiency, sufficient practice is provided with equipment and materials similar to those currently used in the occupation.
7. Instruction is effectively organized as evidenced by syllabi, lesson plans, competency tests, and other instructional materials.
8. The institution uses a systematic, objective, and equitable method of evaluating student achievement based on required competencies.
9. **For coursework delivered via distance education:** The institution annually reviews the quality and currency of its distance education courseware.
10. **For coursework delivered via distance education:** The institution has processes in place to determine that the student who registers for a distance education course or program is the same student who participates in and completes the course or program and receives the academic credit (with methods such as secure logins, pass codes, or proctored examinations).

11. **For coursework delivered via distance education:** The institution employs a standardized approach to create course templates, course descriptions, learning objectives, course requirements (i.e. standard syllabus, grading, resources, etc.), and learning outcomes associated with its courses and/or programs in order to facilitate quality assurance and the assessment of student learning.
12. **For coursework delivered via distance education:** The institution monitors student progress in distance education activities; such monitoring may include frequency of log-in time, confirmation of student time online, and the percentage of coursework completed.

STANDARD THREE

Program and Institutional Outcomes

Objectives of Accreditation Related to “Program and Institutional Outcomes”

1. To assure that the institution has developed and utilizes effective means of evaluating the appropriate competencies (knowledge and skill levels) of students in each occupational program.
2. To assure that course and/or program completers and employers are satisfied with the education that was received.

Criteria of Accreditation Related to “Program and Institutional Outcomes”

1. Individual student progress data, including (a) evaluations of knowledge and skills required for occupation(s) studied and (b) notations of completion(s) of and/or withdrawal from programs, are maintained and made a part of his/her record.

The institution has a written plan to ensure that follow-up [External Evaluation] is systematic and continuous, and includes the following elements:

2. Identification of responsibility for coordination of follow-up activities.
3. Description of the collection process used to assemble information from completers and/or from the organizations and units which employ them.
4. Description of the information collected from completers and/or from the organizations and units which employ them. Collected information must focus on course/program effectiveness and relevance to job requirements.
5. Explanation of how follow-up information is used to evaluate and improve the quality of program outcomes.
6. Description of how follow-up information is made available at least on an annual basis to instructional personnel and administrative staff.

STANDARD FOUR Strategic Planning

Objectives of Accreditation Related to “Strategic Planning”

1. To ensure that the institution uses a systematic process.
2. To ensure that strategic planning leads to the establishment of priorities and to appropriate action.
3. To assure that the strategic plan is subject to systematic and periodic review by the institution and a formally-constituted institutional advisory committee appropriate to the institution and its mission.

Criteria of Accreditation Related to “Strategic Planning”

The institution has or aligns to a written strategic plan that includes, as a minimum, the following components:

1. Mission of the institution;
 2. Vision of the institution;
 3. Objectives for a minimum period of three years;
 4. Strategies for achieving the objectives; and,
 5. Strategies for evaluating progress toward achieving the objectives.
6. The strategic plan is shared with faculty, staff, and constituents (e.g. higher headquarters or governing body) (and revised as necessary) at least annually.
 7. The results of the evaluation of progress toward achieving the objectives are documented annually.

STANDARD FIVE

Learning Resources

Objectives of Accreditation Related to “Learning Resources”

1. To verify the presence and adequate maintenance of learning resources appropriate and essential for the achievement of the objectives for each program offered.
2. To verify that the learning resources are readily available and used by students and faculty.
3. To verify that learning resources meet applicable safety standards.

Criteria of Accreditation Related to “Learning Resources”

A. Media Services

The institution has, aligns to, or is supported by a media services plan and provider which is appropriate for and inclusive of all methods of program delivery and addresses:

1. The scope and availability of the services.
2. A variety of current and relevant educational materials, such as reference books; periodicals and manuals of a business, professional, technical, and industrial nature; audio-visual materials and equipment; internet access to sites with educational and reference materials appropriate to program offerings; and other materials to help fulfill the institution’s purposes and support its educational programs.
3. The staff person (administrative, supervisory, or instructional) responsible for the implementation and coordination of the media services.
4. Roles and responsibilities of designated staff member(s).
5. Orientation for user groups (i.e., instructors, students, and others).
6. Facilities and technical infrastructure essential for using media materials.
7. Annual budgetary support for the services.
8. Annual evaluation of the effectiveness of media services and utilization of the results to modify and improve media services.
9. A current inventory of media resources is maintained.
10. Provisions are made for necessary repair, maintenance, and/or replacement of media equipment and supplies.
11. The institution provides instructional media (both print and non-print) to support students and faculty in meeting program objectives.
12. Elements of the institution’s learning resources (media services, technology, facilities, and materials) are comprehensive, current, selected with faculty input and are accessible by the faculty and students.

13. Media services (instructional supplies, physical resources, and fiscal resources) are available to support the instructional programs offered by the institution.
14. Media services are available to ensure the achievement of student learning and program objectives.

B. Instructional Equipment

1. The institution has an inventory procedure to account for instructional equipment.
2. The institution has a procedure for emergency purchases to assure the acquisition and/or repair of equipment within a reasonable period of time to support continuous instruction.
3. Relevant and up-to-date equipment is available to support the instructional programs offered by the institution.
4. The institution has a written plan for maintaining equipment and for replacing or disposing of obsolete equipment.
5. Instructional equipment meets appropriate and required safety standards.

C. Instructional Supplies

1. Instructional supplies are available to support the instructional programs offered by the institution.
2. The institution has a procedure for purchasing and storing instructional supplies.
3. Funds are budgeted or made available to provide supplies at a level that supports quality occupational education.
4. The institution has a procedure for emergency purchases of instructional supplies within a reasonable period of time to support continuous instruction.
5. First aid supplies are readily available.
6. Instructional supplies meet appropriate and required safety standards.

STANDARD SIX

Physical Resources and Technical Infrastructure

Objectives of Accreditation Related to “Physical Resources and Technical Infrastructure”

1. To verify the presence and adequate maintenance of physical resources and technical infrastructure appropriate and essential for the operation of the institution and the achievement of the objectives for each program offered.
2. To assure that the physical resources provide for the protection of the health and safety of students, faculty, administrative staff, and visitors.
3. To assure that the institution’s technical infrastructure provides for the privacy, safety, and security of data contained within it.
4. To assure that the institution’s technical infrastructure provides for the reliable accessibility and backup of data contained within it.

Criteria of Accreditation Related to “Physical Resources and Technical Infrastructure”

1. The institution plans for and/or participates in broader long-range planning decisions related to its facilities and campus improvement efforts and technical infrastructure, to include, if applicable, distance learning infrastructure.
2. The technology used by the institution to deliver services and, if applicable, program/course content to students meets the needs of the students without creating barriers to student support or learning.
3. The institution plans for and/or participates in decisions relative to its current operations, maintenance, and the improvement of facilities and technical infrastructure (including elements addressing personnel; equipment and supplies; applicable federal codes and procedures; availability of the plan to employees and students; and, annual evaluation of the plan (and revised as necessary)).
4. Existing physical facilities at all locations provide adequate, safe, and clean facilities with supporting utilities for classrooms, laboratories/shops, offices, rest rooms, lounges, meeting rooms, parking, etc.
5. The institution plans for and/or participates in broader planning decisions relative to the health and safety of its faculty, staff, students, and guests to maintain readiness in cases of sickness, accidents, or emergency health care needs on campus.
6. A plan to ensure the privacy, safety, and security of data contained within the technical infrastructure of the institution networks, whether provided directly by the institution or through contractual arrangements, has been developed and is in use.
7. The institution ensures computer system and network reliability and emergency backup for all technical services whether provided directly by the institution or through contractual arrangements.

STANDARD SEVEN

Financial Resources

Objectives of Accreditation Related to “Financial Resources”

1. To verify that the institution has the necessary financial resources to achieve the objectives of its programs and services.
2. To verify that the institution has the financial stability to enable it to continue to meet financial obligations and achieve its objectives.
3. To verify that revenues and expenditures are capably managed and accurately documented.

Criteria of Accreditation Related to “Financial Resources”

1. A qualified financial officer or department oversees the financial and business operations of the institution.
2. Financial records are maintained so that the institution’s fiscal position may be analyzed in a timely manner.
3. The institution demonstrates responsible financial management with funds sufficient to maintain quality educational programs and to complete the education of students enrolled.
4. The institution uses adequate auditing and budgetary controls and procedures consistent with federal requirements.
5. The institution exercises proper management, financial controls, and business practices.
6. Qualified personnel are responsible for proper record-keeping, reporting, and auditing.

STANDARD EIGHT

Human Resources

Objectives of Accreditation Related to “Human Resources”

A. General

1. To verify that accurate and current job descriptions are available for all employee positions.
2. To verify that appropriate and published complaint/grievance procedures for employees are maintained and followed equitably.
3. To verify that appropriate and published procedures for evaluating the effectiveness of employees are maintained and followed equitably.

B. Faculty

1. To assure that the number of faculty is sufficient to fulfill the mission and operate the programs of the institution.
2. To verify that the faculty, including adjuncts, are and remain well prepared by virtue of education and experience to perform the duties assigned to them including teaching at a distance where applicable.
3. To verify that, in addition to teaching, faculty are appropriately involved in curriculum development, student advisement, work with business and industry, and planned programs of professional development in order to remain current in their teaching fields.

C. Administrative and Supervisory Personnel

1. To assure that the number of administrative and supervisory personnel is sufficient to fulfill the mission and operate the programs of the institution.
2. To verify that administrative and supervisory personnel are and remain well prepared by virtue of education and experience to perform the duties assigned to them.

D. Instructional Support Staff

1. To assure that the number of instructional support staff is sufficient to fulfill the mission and operate the programs of the institution.
2. To verify that instructional support staff are and remain well prepared by virtue of education and experience to perform the duties assigned to them.

E. Non-Instructional Support Services

To verify that there are adequate non-instructional support staff/services provided by qualified personnel (or contracted services) to support the institution's mission.

Criteria of Accreditation Related to "Human Resources"

A. General

1. Duties and responsibilities of each position are specified in written job descriptions made available to members of the institution.
2. The institution has published and implemented procedures for handling complaints/grievances from faculty and staff that are consistent with the policies of the institution's governing board including complaints/grievances filed against the institution's chief administrator, if any.
3. Procedures have been developed for the continuous evaluation of the performance and effectiveness of full- and part-time employees, with at least an annual written review and evaluation.
4. Orientation procedures for employees are maintained and followed equitably (e.g. new employee orientation, institution orientation, course orientation, etc.).

B. Faculty

1. The institution has a sufficient number of faculty members to fulfill its mission and operate its programs.

Each faculty member possesses:

2. A least a high school diploma (or its equivalent);
3. Expertise in their areas of responsibility that is actively maintained; and,
4. A record of performance that reflects work-based standards as interpreted by the institution.
5. Additional requirements established for faculty members by the institution, its governing board, parent headquarters, agency, and/or Service are met.
6. **For coursework delivered via distance education:** Instructors involved in distance education delivery of instruction must be employees of the institution (full-time, part-time, or adjunct).
7. **For coursework delivered via distance education:** The institution provides training for faculty who use technology in distance education courses and programs.
8. The institution plans, provides, supports, and annually documents professional growth opportunities for and participation by all faculty members.

9. Each faculty member in a technical field maintains contact with the organizations and/or units they serve and their technical disciplines through any number of means to include, but not limited to: assignments, rotations, periodic visitations, conferences, education and training, periodicals, and/or recurring personal contact.

C. Administrative and Supervisory Personnel

1. The institution has a sufficient number of administrative and supervisory personnel to fulfill its mission and to oversee the operation of its programs and services.
2. Administrative and supervisory personnel possess postsecondary education credentials and/or experience and demonstrated competencies appropriate to their areas of responsibility.

D. Instructional Support Staff

1. The institution has a sufficient number of instructional support staff members to fulfill its mission and enable its programs.
2. Personnel are employed to maintain student records and to assist in producing instructional materials; and to prepare correspondence, reports, and other records as needed.
3. Instructional support staff possess education credentials and/or experience and demonstrated competencies appropriate to their areas of responsibility.

E. Non-Instructional Support Services

1. Custodial services are available to provide routine care and maintenance of facilities and grounds for the institution.
2. Preventative maintenance services are provided to ensure continued operation of the facilities.

STANDARD NINE

Organizational Structure

Objectives of Accreditation Related to “Organizational Structure”

1. To assure that the institution has a properly constituted governing body with legal authority and responsibility for the institution’s operations.
2. To assure that the governing body designates a chief administrator or commander to whom is delegated the responsibility for the institution’s operations.
3. To assure that the institution is organized to promote effective and efficient operation of the educational programs and non-instructional services to students.

Criteria of Accreditation Related to “Organizational Structure”

1. The institution has a properly constituted governing body (either external or internal) that has the authority and responsibility for the institution’s operation and control.
2. The institution’s chief administrator or commander is responsible for the institution’s daily operations.
3. The chief administrator or commander is the designated official of record for purposes of the Commission, is a full-time staff member of the institution, has his/her office on the main campus, and is the Commission’s point of contact with the institution, including branches, if any.
4. An organizational chart is available that shows the functional relationships among the personnel of the institution.
5. The organizational structure is designed to promote the effective operation of educational programs and institutional services for students.

STANDARD TEN

Student Services and Activities

Objectives of Accreditation Related to “Student Services and Activities”

1. To assure that adequate and appropriate student services are available to support the mission and programs of the institution. These services include:
 - a. Academic advisement
 - b. Orientation
 - c. Grievances
 - d. Health and safety
 - e. Records
 - f. Others as appropriate to the institution (i.e. Registration, human resource center, etc.)

Criteria of Accreditation Related to “Student Services and Activities”

1. The institution provides academic advisement services (formal or informal) as required to assist students in planning for and/or completing their courses or programs. (Objective 10-1-a)
2. Tests or other means of assessing the achievement and aptitudes of students for various occupations are appropriate and are used to provide personalized counseling and program placement services to students. (Objective 10-1-a)
3. There is a process to acquaint new students with policies, functions, and personnel of the institution. (Objective 10-1-b)
4. The institution has implemented appropriate grievance policies (i.e. Chain of Command, IG, EEO, JAG, etc.) which are further described in the institution’s catalog or student handbook for handling student complaints. (Objective 10-1-c)
5. Institutional records reflect that program complaints and grievances received by the institution obtain due process and include evidence of resolution. (Objective 10-1-c)
6. As an avenue of last resort, the Commission’s mailing address, telephone number, and website address are included within the grievance policy and made available to students, faculty, and staff. (Objective 10-1-c)
7. Records on student complaints are filed by the appropriate office in accordance with the parent headquarters, agency, or Service policy. (Objective 10-1-c)
8. A designated staff member is responsible for maintaining official files and records of students. (Objective 10-1-e)
9. Written procedures for access to student coursework, testing, and records are established to protect their confidentiality, limiting access to authorized personnel only. (Objective 10-1-e)

10. The institution, upon request by students, provides transcripts or procedures for obtaining transcripts containing as a minimum the following information: program of study, courses or units of study completed with corresponding grades, and period of enrollment. (Objective 10-1-e)
11. Period-of-enrollment, academic, and current educational progress records are available at the institution. (Objective 10-1-e)
12. Preserving and protecting student coursework, testing, and records is provided by the use of storage devices, duplicate physical or digital records, security files, or other measures that ensure both the preservation and security of the records from fire, theft, vandalism, and other adverse actions. (Objective 10-1-e)
13. If students with special needs are admitted into the program, then the institution makes reasonable accommodations to meet their needs. (Objective 10-1-f)
14. The institution has policies and procedures that help assure the effectiveness of student services, document a systematic evaluation of those services, and provide for dissemination of any results to the staff so that pertinent information can be used to improve the student services. (Objective 10-1-f)

SECTION VII

Definitions

Accreditation—A process by which quality is certified. As applied by the Commission, a self-regulatory process by which the Commission recognizes educational institutions that have been found to meet or exceed stated Standards applicable to occupational education institutions and/or programs (quality-assessment).

Administration—The professional staff who provide formal leadership in an institution. The institutional administrative staff includes the chief administrator and other personnel who perform the administrative functions defined by institutional policy.

Administrator—A full- or part-time employee of an institution to whom has been given the responsibility of coordinating operational and/or instructional activities of the institution.

Admission(s)—The process through which a student is enrolled in an institution and/or placed into a program.

Adverse Action—An action taken by the Commission or Appeal Board to deny, withdraw, suspend, revoke, or terminate candidacy or accreditation.

Associate Degree—As defined in the U.S. Secretary of Education's scope of recognition for the Council, the term 'associate degree' refers to an 'applied' program with a credential awarded upon completion that is designed to lead the individual directly to employment in a specific career. The sole focus of associate degree programs accredited by the Council must not be described as transferability to a program offering a bachelor's degree. Although the objective of this degree is to enhance employment opportunities, some bachelors' degree institutions have developed upper-division programs to recognize this degree for transfer purposes, and this trend is to be encouraged when appropriate. When articulation agreements with four-year institutions do exist, those opportunities may be described in appropriate publications. However, institutions approved to offer applied associate degree programs by the Council must take care not to guarantee the transferability of credit to other institutions by way of the title of the programs or the descriptions of the programs.

Benchmark—A standard of excellence or achievement against which similar things must be measured or judged. (Benchmarks for minimally-acceptable percentages of completion, placement, and licensure exam pass rates can be found within the Council's annual report software and on the Council's web site – www.council.org.)

Candidacy/Candidate for Accreditation [Pre-accreditation]—A status granted to an institution that has demonstrated compliance with specified eligibility requirements which define the universe of entities that may seek accreditation by the Commission.

Career Development—Professional development and skill enhancements necessary for individual growth and lifelong learning.

Chief Administrator—The chief administrator is a senior military officer or civilian employee who serves as the administrative head of a federal or military institution and is the person with whom primary responsibility for institutional operation rests. The chief administrator is the first contact of record for the Council and is the person to whom all official correspondence regarding accreditation will be addressed. The chief administrator holds the authority to requisition institutional resources and direct activities toward the achievement and maintenance of all obligations of affiliation with the Council. The chief administrator

must be a full-time employee of the institution and must maintain his/her office on-site at the main campus. (Chief administrators of federal institutions often carry titles such as: Commandant, Commander, President, Administrator, Director, Principal, etc.)

CLEP (College-Level Examination Program) – A set of standardized tests in various subjects, qualifying scores on which can be used to earn college credits.

Clinical Instruction—Supervised instruction involving or concerned with the direct observation and treatment of patients.

Clock Hour—A period of 60 minutes with a minimum of 50 minutes of instruction.

Co-Location—An arrangement between two legally separate educational institutions in which administration, faculty, staff, websites, links to websites, telephone numbers, and/or physical facilities may be shared. (This arrangement excludes the contracts between separate institutions that result in instructional service centers or other Commission-approved partnerships.)

Commission—The body of 19 elected members who serve as the governing board of the Council and its accreditation decision-making board.

Community – Group or groups comprised of institutional constituents/ stakeholders (i.e., students, staff, faculty, potential employers, governmental and other entities) who are served by or have an interest in the educational programs offered by an institution.

Competencies—The specialized knowledge, skills, and attitudes required for successful performance in a specific occupation.

Competency Test—A group of questions and/or tasks to which a student responds to produce a quantitative representation of the student's knowledge, skill, and/or performance in a specific occupational area.

Completer—A student who has demonstrated the competencies required for a program and has been awarded the appropriate credential (graduate completer) or has acquired sufficient competencies through a program to become employed in the field of education pursued or a related field as evidenced by such employment (non-graduate completer).

Condition—A process, status, or situation adopted by the Council with which an institution must comply in order to become and maintain status as a candidate for accreditation or an accredited institution.

Constituency—The persons and, if applicable, entities that they represent who are to be served by an institution through one or more of its educational programs.

Continuing Occupational Education—Educational activities or experiences designed to assist in the development of knowledge and skills with the goal of maintaining one's current professional occupation (as opposed to advancing one's career). Participants in continuing education are assumed to have previously attained a basic level of education, training, or experience in the occupational area in which they are enrolling. These activities are not included in the institutional Self-Study Report, FTE calculation, or student achievement data collection, and are not required to be included on the COE approved program list. (See definition for Job Upgrade Training.)

Contractor (Vendor)—A company or individual who provides goods and/or services to an institution for an agreed upon price. Contractors are not considered full-time employees for the purpose of meeting workshop attendance required by the Council's accreditation processes.

Correspondence Education – Instruction delivered via e-mail or traditional mail service and that employs print-based media which may or may not be supplemented with video tape, CDROM, audio tape instruction/demonstrations, as well as online learning resources. Correspondence education requires minimal interaction between instructor and student. (The Council does not accredit correspondence education programs.)

Council—The legal entity incorporated in the State of Georgia whose membership is all institutions accredited by the Commission.

Course—A series of lectures, laboratory and/or work-based activities that pertain to a particular subject and that are typically required as part of a broader curriculum (a program, for example).

Credential—A diploma, certificate, degree, or other official acknowledgment by an institution that a student has completed a program.

Criterion—A characteristic of an institution that must be possessed or demonstrated as evidence of compliance with an accreditation Standard.

Distance Education— An educational delivery method that uses one or more technologies to provide instruction to students who are separated from the instructor; and support regular and substantive instruction between students and the instructor, synchronously or asynchronously. Technologies used may include the internet, print-based media, e-mail, one-way and two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; audio conferencing; or video cassettes, DVD's, and CD-ROMs, if the cassettes, DVD's, or CD-ROMs are used in a course in conjunction with any of the technologies listed. Limitations specified under 'Contractual Agreements/Contracts for Instruction' apply to distance education delivery of instruction.

Distance Education Program—A program that makes available 50% or more of its required instructional hours via distance education.

Distance Education Student—A student who completes 50% or more of his/her required instructional hours in a program via distance education.

Educational Quality—Determined on the basis of (1) the appropriateness of institutional/program objectives and (2) the effectiveness with which the institution/program is utilizing its resources to achieve these objectives.

Eligibility Requirements—Requirements that define the kind of institution or program that an accrediting agency considers a part of its universe and thus within the scope of accrediting activities for which the agency assumes responsibility.

Emergency Evacuation—An emergency evacuation can include exiting the building in case of fire or moving to a safe place inside the facility in case of natural disasters.

Employee—An individual hired by an institution and paid compensation in the form of an hourly wage or annual salary. Employees of an institution are often eligible for additional benefits in the form of retirement, paid vacation and other leave days, various types of insurances, etc. Employment taxes for these persons are paid by the hiring institution. Equipment used for the performance of the employee's duties is provided by the hiring institution.

Enrollee—A person who is admitted to the institution and attends classes in pursuit of completing a program for a minimum time period as specified by institutional policy. (For purposes of measuring outcomes, an institution does not have to report a student as an enrollee if the institution refunds 100% of any tuition and fees that the student may have paid.)

Equipment Inventory—A detailed list of equipment including location, number of items, date of purchase, and purchase price and/or current value of each item. The list should include both instructional and non-instructional equipment.

Final Approval – The second of two required approvals granted by the Commission for certain substantive changes upon the satisfactory completion of hosting a Council site visit (physical or virtual, in the case of distance education applications) and review by the Commission of all documentation related to the substantive change (the application, the site visit report, and the institution’s response to the site visit report – if applicable).

Follow-Up—The act of making formal contact to obtain specified factual and/or perceptual information from a particular person or group of persons.

Full-Time Equivalent (FTE)—A unit of measurement used by the Commission to define the amount of scheduled instruction that equates to one full-time student during one academic year. The Commission defines an FTE as 900 contact (clock) hours, 45 quarter credit hours, or 30 semester credit hours of scheduled instruction. The clock or credit hours used to calculate an institution’s FTE must reflect coursework in which a student has enrolled and matriculated. The FTE does not include hours or credits transferred from other institutions or awarded as CLEP courses. (In some cases, a Federal institution may use an “Average-on-Board (AOB)” measure in place of FTEs for computing dues.)

Goals of the COE Accreditation Process—The significant values and major purposes to whose realization the efforts of individuals and groups are directed.

Good Cause—The Commission may grant an extension of time for compliance with any of the Conditions, Standards, Criteria, or procedures with ‘good cause’. Good cause may be demonstrated through submission of a clear and detailed explanation of extenuating circumstances that have prevented the institution from demonstrating compliance within the time frames specified by the Commission. Circumstances described may include, but are not limited to, economic conditions of the community served by the institution, personnel changes that have taken place within the institution, and natural disasters that have prevented timely compliance. The Commission will determine whether or not institutions have demonstrated good cause on a case-by-case basis. The Commission will take into consideration, not only the extenuating circumstances described by the institution, but the institution’s history of compliance with Conditions, Standards, Criteria, and procedures of the Commission, as well as the institution’s standing with federal, state, and recognized accrediting agencies. The extension granted by the Commission will not exceed the length of the longest program.

Governing Body or Board—An appointed or elected group of individuals who are responsible for establishing policies of the institution in compliance with applicable regulatory statutes.

Graduate—A student who has demonstrated the competencies required for a program and has been awarded the appropriate credential by the institution.

Guidelines—Less prescriptive suggestions for operating or developing something.

Hybrid Program—A program that makes available less than 50% of its required instructional hours via distance education. (Criteria that address distance education infrastructure and coursework requirements throughout the Conditions and Standards are applicable to hybrid programs.)

Initial Approval – The first of two required approvals granted by the Commission for certain substantive changes upon the satisfactory completion and review of the information provided in a substantive change application. After initial approval is granted, Commission staff schedule physical or virtual site visits within 180 days that are required before the second required approval of the change – Final Approval – is granted. Upon the granting of initial approval, institutions may begin full implementation of the change applied for and may be eligible for approval for student financial aid funding as applicable to the change.

Institution—A school, center, unit, or other provider of occupational education. An institution is a physical location (a bricks and mortar 'schoolhouse') where students, faculty, administrators, and other staff are present and where primary and supportive resources are available to instruct students in each course required of every approved program offered by the institution. This includes the designation of physical areas (classrooms, lab areas, administrative and common areas) appropriate for meeting the needs of students, staff, faculty, and others present at the campus. Approvals for specific programs issued by state, federal, or other agencies are not synonymous with the Council's definition of an institution.

Institutional Advisory Committee—A group of at least three persons, a majority being external to the institution, who are knowledgeable of the occupational training needs relevant to the occupational area. Through regularly scheduled and documented meetings, the committee provides consultative assistance to the administration of the institution to ensure that the institution continually strives to meet the occupational education needs of the community.

Instruction—Planned activities directed by an instructor for the purpose of enabling students to acquire specific knowledge, skills, and/or attitudes. Instruction may be provided through lectures, laboratory or clinical exercises, distance education, or planned work-based activities.

Instructional Media—Any print or non-print learning resources (e.g., books, manuals, periodicals, computer software, films, videotapes, audio tapes, slides, and others) and the equipment and services necessary to use them.

Instructional Supplies—Items needed for instruction.

Instructional Support Staff—Full- or part-time personnel who are responsible for those tasks which directly support the faculty.

Integrity—Wholeness or consistency between or among principles, intentions, and actions, and thus uprightness of character.

Job Upgrade Training— Educational activities or experiences that are designed to enhance existing knowledge and skills and that are offered with the goal of providing persons in specific occupations with the credentials, knowledge, and skills needed for career advancement (as opposed to maintaining one's current professional occupation position). These activities are considered to be occupational programs and are included in the institutional Self-Study Report, FTE calculation, and student achievement data collection (completion data only), and must be included on the COE approved program list. (See definition for Continuing Occupational Education.)

Laboratory Instruction—An instructional setting under the supervision of institutional faculty in which students apply theories and principles learned during lectures in order to acquire the proficiency and dexterity that is required in the occupation for which the student is being prepared.

Lecture—Instruction by a qualified faculty member or other resource which imparts to students the concepts, principles, and theories of an academic or technical subject.

Legal Authority—The power derived by an individual or group to perform specific functions based on applicable local, state, and/or federal statutory regulations.

Legal Responsibility—The obligation and/or liability placed on an individual or group by applicable local, state, and/or federal statutory regulations.

Main Campus – The lead (or parent) institutional campus is the location where the offices of the chief administrator and accreditation liaison officer are maintained and to which all non-main campus sites are subordinate and accountable. The main campus must offer at least one approved occupational program and must maintain duplicates of all student records for non-main campus sites.

Merger – Two or more accredited main campuses that merge into one campus; or, an accredited institution becoming a branch of another accredited institution.

Mission of the Institution —The end to be attained by an institution through the programs and services provided for its students. The mission of federal institutions shall be to instruct students to such competency levels that they are qualified to perform federal jobs.

Non-Public Institution—An institution that is created, operated, and controlled by a non-governmental entity; such as, a business corporation, a foundation, a religious organization, or a chartered association.

Objectives of COE Accreditation—Explication in more specific terms of ideas and activities inherent in the aspects of the institution evaluated by the COE accreditation process, but not necessarily obvious or explicit in the goals of COE accreditation.

Objectives of an Educational Course/Program—Learning objectives are statements that specify the knowledge, skills, and/or attitudes (KSA) to be acquired by students through planned instructional activities. Typically, learning objectives can be classified into two categories, Terminal Learning Objectives (TLO) and Enabling Learning Objectives (ELO).

A TLO is the highest learning level (KSA) appropriate to the human performance requirements a student will accomplish when successfully completing instruction. (Other names include: Lesson Objective, Primary Objective, and Main Objective).

ELOs are the objectives students must attain in order to accomplish a terminal objective. (Other names include: Secondary Objective, Sample of Behavior, Supporting Objective, Subordinate Objective, and Topical Objective).

Objectives of a Strategic Plan—Objectives are specific in nature and consist of the following elements:

1. What will be accomplished;
2. When it will be accomplished;
3. Who is responsible for accomplishing it; and,
4. How accomplishment will be measured.

Occupational Area—A general term used to broadly group vocational/technical functions to a profession. For example, a Military Occupational Specialty (MOS) identifies areas of job concentration (typically skills required for successful performance) to classify positions (duty position title, identifier(s), credentials, and authorization documents). Most federal employees are classified into occupational categories based upon work performed, skills, education, training, and credentials.

Occupational Education Institution—An education institution that has as its mission the preparation of individuals for employment and/or career enhancement. (The main campus or parent institution has a chief administrator to whom each branch, extension, or other type of separate site is subordinate and accountable. The institution recognizes individuals who acquire targeted knowledge, skills, attitudes, and other competencies by awarding appropriate credentials such as applied associate degrees, diplomas, certificates, and/or other acceptable credentials.)

Occupational Education Program—A sequence of instruction and related activities (e.g. laboratory activities and/or work-based activities) designed to provide educational and workplace competencies that lead to a credential. (Such programs offered by Commission accredited institutions are designed to prepare individuals for job entry and/or career advancement.)

Official Meeting – A meeting is considered 'official' if it: a) is planned or called by the institution; b) requires attendance of members; c) follows an agenda; and, d) is recorded in official minutes.

Operational Procedure—Specific provisions that have been established by the institution to implement policies adopted by the governing board.

Placement—A completer of a program who (1) is employed in the field of education pursued or in a related field, or (2) has received the appropriate credential and entered the military or continued his/her education. Valid employment in the field or a related field includes placement in a permanent full- or part-time position with an employer or employment agency, or self-employment in the field of education or a related field. Internships and externships, either paid or unpaid, do not qualify as placements.

Plan—A detailed proposal/method for doing or achieving something that is prepared beforehand. The following elements are commonly included in a plan: scope of services, budgetary resources, major activities, major publications, evaluations of the plan, and constituents with whom the plan is shared.

Policies—A set of written statements providing the bounds within which all procedures, programs, goals, objectives, and activities of the institution are carried out. These are adopted by the governing board of an institution (or in military institutions, by higher military command headquarters) to ensure operations are in compliance with statutory regulations as well as being consistent with the stated mission.

Position—An attitude or stance of an entity—the way a body (organization) looks at an issue or takes a stand on such. A mental or emotional stance adopted with respect to something.

Pre-accreditation [Candidacy/Candidate for Accreditation]—A status granted to an institution that has demonstrated compliance with specified eligibility requirements which define the universe of entities that may seek accreditation by the Commission.

Procedure—A formal or set order of operating or doing something—a method of conducting affairs.

Process—A series of progressive and independent steps by which an end is attained.

Professional Growth—Planned activities to increase the knowledge, skills, and/or abilities of professional personnel in areas related directly to job responsibilities.

Publication (Federal)—A catalog and/or other official documents which are made available through various media (hard copy or online), to provide the information specified below that must be readily available to students, prospective students, and other constituents. (Federal institutions are required to take appropriate measures to ensure personally identifiable information [PII] is not released to unauthorized entities.)

- a. The publication(s) must contain and accurately depict the following information:
 1. Institutional mission.
 2. Admission requirements and procedures.
 3. Policy on the transfer of students between programs within the institution (if applicable).
 4. Policy on the transfer of credits that includes a statement of the criteria established by the institution regarding the transfer of credit earned at another institution (if applicable).
 5. Basic information on programs and courses, with any required sequences and frequency of course offerings explicitly stated.
 6. Program completion requirements, including length of time required to obtain certification of completion.
 7. Faculty (full-time and part-time listed separately) with degrees held and the conferring institution.
 8. Description of institutional facilities readily available for educational use.
 9. Rules and regulations for conduct.

10. National and/or state legal requirements for eligibility for licensure or entry into an occupation or profession for which education and training are offered (if applicable).
 11. Any unique requirements for career paths or for employment and advancement opportunities in the profession or occupation described.
 12. Grading system.
 13. Academic/school calendar.
 14. Street address and telephone number of each campus of the institution (main campus and each additional permanent site).
 15. Institution's student grievance policy, which includes successive procedures showing the Commission's mailing address, telephone number, and web site address as an avenue of last resort.
- b. Other publications that make any reference to the institution's status (candidacy or accredited) with the Commission must be accurate and must include the name, address, telephone number, and web site address of the Commission. (In lieu of reference to the Commission, the institution may use the following statement: "For information about national and program accreditation, contact the institution.")
- c. The institution's website must include the following:
1. The name of the institution exactly as approved by the Commission and the institution's authorizing agency
 2. The name, email address and telephone number of the institution's Chief Administrator

Real, Threatened, or Impending Danger—Any situation which could cause injury to persons on the institution's campus, including but not limited to fires, tornadoes, floods, hurricanes, earthquakes, bomb threats, or violent acts by an individual.

Registrant—A person who registers for instruction with intent to attend.

Related Field (Placement) – Placement of graduate and non-graduate completers in a broader field of work that uses the knowledge and skills gained in the program of study regardless of whether the work title specifically references the program of study. Graduate completers who secure employment in a field that does not require the knowledge and skills gained in the program of study for securing that employment must be classified as placed in an 'unrelated' field. (Non-graduate completers, by definition, must secure employment in the field of study or a related field, employment that requires knowledge and skills gained in the program, or must be classified as withdrawals from the program of study.)

Scope (change of)—Any instance in which an institution departs significantly from its mission in regard to the occupational areas for which it offers preparation or when it seeks to offer its first (initial) applied associate degree program.

Service Area—Service area is defined as the geographical area surrounding the institution from which the institution expects to attract students and serve employers.

Staff—The administrative, supervisory, faculty, and non-instructional personnel employed by an institution.

Standard—Generalizable conditions determined to be essential for objectives to be achieved.

Strategic Planning—A formalized, systematic process that the institution uses to anticipate and respond to major decisions facing it in the future.

Student—A person who is formally engaged in learning as demonstrated by a commitment to attend class and pay tuition regardless of the source.

Syllabus (Syllabi)—An outline or other brief statement of the main points of the subjects of a course or lecture, the contents of a curriculum, etc.

Technical Infrastructure – The framework of an institution’s electronic student, financial, and IT information system inclusive of hardware and software that supports students, faculty, and staff services that guide institutional operations including the delivery of distance education as approved by the Council.

Traditional Program—A program that requires all instructional hours to be completed on campus.

Vision of the Institution—A values-based description of a desired future for the institution that clarifies the institution’s image and how it should conduct itself as it fulfills its mission.

Withdrawal—A student who enrolled in an institution but withdrew before acquiring sufficient competencies for employment and before earning a credential in the field of education pursued or a related field.

Work-Based Activities—Structured learning activities conducted in supervised work settings external to the institution or a program, or in a setting that involves the public (for example: clients who are served by the institution in cosmetology clinical or automotive technology settings) that are components of educational programs (e.g., externships, internships, clinical experiences, industrial cooperative education, and similar activities). Work-based activities may also include structured learning activities that occur outside of the classroom. These activities must be planned with at least two objectives:

- 1) To provide students with the opportunity to develop and apply a ‘real-world’ work experience using the knowledge and skills they attained in their program of study; and,
- 2) To provide the institution with objective input from potential employers or customers of program graduates.
